

DEFINITION FILE FOR IL AUTHORITY FILE

Authority File

This definition file relates to the IL authority file: IL_AF_20260119.txt

Date of production

2026-01-19

Data Coverage

The IL authority file lists all IL patent publications (patent applications and granted patents) from 1991-01-01 to 2025-12-31.

Document Type	Kind Code	Total	Note
Patent Application	A	131,491	The date for each document with "A" kind code indicates the date on which all the application documents are laid open to public inspection after 18 months from the priority/filing date, or within 45 days from the date of entry to national phase, under Section 16A of the Israel Patents Law.
Patent Granted	B2	111,641	The date for each document with "B2" kind code indicates the date on which a patent is issued under Section 36 of the Israel Patents Law.
		243,132	Total

Update frequency

- This authority file is updated semi-annually (January and July).
- Next expected update: July 2026.
- Update type: Full (complete file provided at each update period).
- File format: Text file (TXT) with comma-separated values, UTF-8 encoding.

Remarks on Data Elements

- The public IL documents do not include an abstract as it is not required by the Israel Patents Law. Therefore, the availability of the abstract (ABST) in the authority file is indicated as "N" for Not available.
- The language of the description (DESC) and claims (CLMS) is indicated by the two-letter code "en" for English and "he" for Hebrew.
