General

- A. Under the Order Concerning Closed Areas (West Bank Area) (Amendment) (No. 34), 1967, the area of Judea and Samaria is a closed military area and not to be entered or exited without a permit issued on behalf of the military commander.
- B. Entry of Gaza Strip residents into Israel is conditional on a permit from the Coordination and Liaison Administration (CLA) for Gaza, in accordance with qualification under the Entry to Israel order (Exemption of Gaza Strip residents) 5765-2005 as well as the prerogatives of the Area Commander under the Citizenship and Entry into Israel Law (Temporary Order) 5763-2003.
- C. The departure of an Israeli, including an Israeli resident and a foreign national granted a residency permit in Israel, requires a permit issued by the head of the Southern Command and Gaza CLA on the Israeli's behalf, as authorized by article 24 of the Disengagement Plan Implementation Law 5765-2005.
- D. In keeping with the authority assigned to COGAT offices, with the decisions at the political level, and with the security risks arising from actions by terror organizations that exploit the movements of people, there is no separating the implementation, shaping, and definition of policy regarding the movement of people between Israel, Judea and Samaria, and the Gaza Strip on the one hand from the changing political and security situation on the other hand. Accordingly, with respect to the movement of people, the authorized offices frequently review the criteria and revise them according to that situation.
- E. Besides needing to be covered by currently valid authorizations, requests for entry are also evaluated according to the necessary individual security checks that the security services and Israel Police need and according to the political, security, and strategic interests of the State of Israel with respect to the requests. The requests must pass administrative and procedural examinations as required by all the relevant administrative authorities. Also checked is the veracity of the support documents accompanying the request, as is the need for presenting further documents as support.
- F. It bears remembering that a Palestinian resident has no vested right of entry into Israel and an Israeli has no vested right to exit into the Gaza Strip.

- G. Lest any doubt remain, let us clarify that wherever the term “first-degree relative” appears in this document, or in any other documents issued or authorized by COGAT and touching on the movement of people between the State of Israel, the Gaza Strip, and the Judea and Samaria area, it refers exclusively to the mother, father, brothers, sisters, children, and spouse, unless explicitly stated otherwise with reference to a certain individual criterion in a current document. For the exit of Israelis into the Gaza Strip, note that with respect to attending a wedding, funeral, or other exceptional occasions, grandparents are considered first-degree relatives.
- H. Attached to this document, at the end, are "Tables of Permits" that apply to the Palestinian population of Judea, Samaria, and the Gaza Strip. The content of the tables is intended to supplement and complete, where necessary, the criteria listed in the body of the document. Each criterion, as it appears in the body of the document, should be read together with the corresponding line of the tables.
2. **Purpose of the document**
- A. Defining the authorizations for entry of Palestinians into Israel, including entry for the purpose of travel between the Judea and Samaria area and the Gaza Strip and travel for the purpose of going abroad.

Section B

Status of authorizations for the Palestinian population in the Gaza Strip

1. General instructions

- A. Requests for the entry of Gaza Strip residents into Israel are passed from the Palestinian Civil Committee — which is responsible to the Palestinian Authority's Ministry of Civil Affairs in Ramallah — to the Coordination and Liaison Administration (CLA) for Gaza. The Civil Committee is responsible for assembling, screening, and prioritizing the requests directed by Palestinians from the Gaza Strip to the Israeli offices, according to its own discretion. In exceptional cases, requests are accepted that come from sources within the international community or from recognized international organizations.
- B. All the forwarded requests shall receive assessment according to the State of Israel's political, security, and strategic considerations, including individualized security checks regarding the requester or the requester's family, the conformance of the request to the criteria set from time to time for entry of Gaza Strip residents into Israel, necessary administrative checks such as the veracity of the documents attached in support of the requests, the need for additional supporting documents, etc. These checks are an integral part of the assessment and approval process for every request.

2. Health needs

Entry into Israel is granted on the basis of 5 primary purposes for the permit:

- A. **Medical care:** Entry into Israel is approved, even if in order to continue into Judea and Samaria or abroad, for the purpose of receiving life-saving medical care or medical care that is crucial to the quality of life. All this is contingent on the unavailability of the requested treatment in the Gaza Strip.
1. Entry is made possible in accordance with a request from the Palestinian health coordinator, who operates under the aegis of the Palestinian Civil Committee and is responsible for prioritizing the requests, classifying them by urgency, and passing them to the Gaza CLA,

2. It must be emphasized that payment for the medical care is passed from the Palestinian Authority directly to the hospitals in Israel. For that reason, the Palestinian Authority approval is required well in advance for the patient's entry into Israel.
 3. Chronic patients (cancer/dialysis) currently receive permits that can serve as "punch cards" for one day at a time according to the frequency of their treatments (departure for treatment, and return on the same day).
 4. In a case of complicated medical treatment (such as continuous chemotherapy requiring a recovery period), a permit will be approved on an individual basis, after the frequency of treatment is examined along with other factors, covering entry into the Judea and Samaria area or into Israel for a lengthy period (3–6 months), including lodging,
- B. **Accompanying parent:** A parent accompanying a patient who is under the age of 18 and is receiving medical care in Israel, in Judea and Samaria, or abroad. Entry may be approved as specified in the table, for up to one month as appropriate to the frequency of treatment. The permit must be valid, and the patient must have it at hand. If the accompanying parent is not in the patient's presence, the parent may present a valid certificate of hospitalization.
- C. **Other accompanying person:** Someone accompanying a patient who is receiving medical care in Israel, in Judea and Samaria, or abroad. Entry may be approved as specified in the table, for up to one month as appropriate to the frequency of treatment. The permit must be valid, and the patient must have it at hand. If the accompanying parent is not in the patient's presence, the parent may present a valid certificate of hospitalization. As a rule, each patient will have one accompanying person approved. Departure of a minor up to age 18 requires an accompanying person.
- D. **Supplementary medical training:** Entry of medical personnel coming to hospitals or medical centers in Israel or in the Judea and Samaria area for supplemental professional training in medicine and in specialties that can strengthen and improve the medical response provided to residents of the Gaza Strip, with an emphasis on specialties that do not exist in the Gaza Strip.

- E. **Visiting the sick:** Entry of Gaza Strip residents into Israel (including transit into the Judea and Samaria area or abroad) for a visit to a first-degree relative who is under extended hospitalization — including a stay in a recuperation center or at-home hospitalization that involves medical monitoring and attendance — or who is seriously ill and whose life is in danger. (In this context, the patient's age is also taken into consideration.)

3. **Finance and employment**

Entry into Israel is granted on the basis of 4 primary purposes for the permit:

- C. **Person accompanying a BMC:** Entry of the spouse and children of a BMC to accompany the BMC at the crossing.
- D. **Exceptional permit for employment:** Generally, employment of Gaza Strip residents in Israel is not approved. 4. **Foreign nationals and international organizations:**

Travel by employees of international organizations is granted on the basis of 3 primary purposes for the permit

- A. **Employees of international organizations:** Palestinians who are employed by international organizations recognized by the Ministry of Welfare, Ministry of Interior, or Foreign Ministry, or employed by diplomatic missions (embassies, consulates, and diplomatic missions to the Palestinian Authority) of countries that maintain diplomatic relations with Israel, and who appear in the list of employees provided by the organizations and missions to the DCL, are permitted to enter Israel but only for purposes of their organization's or mission's activity.

- B. **Beneficiaries of international organizations:** Palestinians who are not employed steadily by an international organization that is recognized by the Ministry of Welfare, Ministry of Interior, or Foreign Ministry, but who are employed temporarily or are participating in projects or programs funded by the organization (such as "contract employees") are permitted to enter Israel but only for purposes of their organization's activity.
- C. **Further instructions — Exit of foreigners from Israel into the Gaza Strip through the Erez Crossing:**

In accordance with the provisions of the "Procedure for coordinating entry into the Gaza Strip by foreign nationals," and subject to the following categorization and instructions:

1. Exit of diplomats into the Gaza Strip:

- A. Departure of foreigners who are employees of recognized international organizations: For foreigners who are employees of international organizations recognized by the State of Israel through the Ministry of Welfare, Ministry of Interior, or Foreign Ministry, who are foreign citizens, and in whose name an official request has been submitted by the international organization's Israeli headquarters, departure is under the authority of the Commander of the Coordination and Liaison Administration (CLA) for Gaza.

- B. **Legal needs:** Entry of Gaza Strip residents into Israel for the performance of activities necessary for Israeli court proceedings (for example, testimony at court, examination by a court-appointed medical expert, etc.). Requests will be approved only if they meet the provisions of the "Procedure for evaluating entry requests from Palestinian residents of Gaza for the purpose of legal proceedings in Israel," including the consideration that preventing the resident's entry could be destructive to the legal process or could be seriously harmful to the resident; the existence of exceptional humanitarian considerations having to do with the process and its results; and the absence of any particular block on security or criminal grounds.

- A. Under authority of the head of the Southern Command, and the Coordination and Liaison Administration (CLA) for Gaza on that officer's behalf, subject to approval by the appropriate offices at the Ministry of Interior and to the necessary security checks.
 - B. Currently, in order to temporarily reduce the entry of Israelis into the Gaza Strip in accordance with a directive from the head of the Southern Command, exit of Israelis will not be approved except in humanitarian cases that have been examined in detail and in exceptional, unique, and urgent circumstances only.
 - C. Accordingly, the criteria for the exit of Israelis into the Gaza Strip are listed here:
 - 1. **Departure in a case of exceptional humanitarian need:**
 - A. Exit of Israelis into the Gaza Strip in order to visit a first-degree relative / grandparent with a serious illness that endangers life or requires lengthy hospitalization.
 - B. Exit of Israelis into the Gaza Strip in order to attend a funeral or wedding of first-degree relative, including grandparents.
 - C. Exit of accompanying children: Israelis permitted to exit into the Gaza Strip according to the above criteria may be accompanied by their children who are up to 16 years old and no older.

2. "Separated families": Departure of Israelis whose spouses reside in the Gaza Strip ("separated families") for the purpose of union with their spouses and together with their Israeli children up to age 18. If an Israeli parent is unable to exit to the Gaza Strip (but only in cases of serious illness that prevent travel, of death, or of divorce), that parent's children will be allowed to exit into the Gaza Strip for a visit to the Gazan parent.
 - A. Children up to 16 years old may be accompanied by one first-degree or second-degree relative (an elder brother up to 18 years old, a grandparent, or in exceptional cases an Israeli uncle or aunt).
 - B. The approval will be given only to the Israeli relatives (parents/children).
 - C. Departure of children (up to age 18) will be preceded by the Israeli guardian's signature on a declaration waiving personal and security responsibility before the departure into the Gaza Strip.
 - D. Without being accompanied by a parent, children may depart for a period of no more than one week.
3. Israelis who reside in East Jerusalem and are employed by international organizations: Departure, from East Jerusalem to the Gaza Strip, of Israelis employed by international organizations that are recognized by the Israeli Ministry of Welfare, Ministry of Interior, or Foreign Ministry, or of employees of diplomatic missions of states that maintain diplomatic relations with the State of Israel, whose expertise or specialty is vital to the functioning of the organization or diplomatic mission in the Gaza Strip.
4. Businesspeople and others, but only residents of East Jerusalem: Those aiming to improve and advance the Gaza Strip's economy and humanitarian infrastructure. A quota limits this category to 150 East Jerusalemites at any given time, subject to criteria as stipulated in the procedure.

5. Departure of up to 500 Arab Israeli merchants aiming to improve and advance the Gaza Strip's economy, in accordance with the criteria: Approval for the exit of Israelis into the Gaza Strip depends not only on the above criteria but also on the results of all the necessary security checks, on the changing political/security situation and its possible implications at the Erez Crossing, and on the anticipated risks connected with the travel of Israelis into the Gaza Strip. In addition, permission to exit into the Gaza Strip is conditioned on fulfillment of all the requirements and conditions defined by all the public authorities operating at the Erez Crossing, in accordance with the jurisdiction and rules of each.
