ALGERIA

Ministry of Higher Education and Scientific Research The Directorate-General for Scientific Research and Technological Development (DGRSDT)

a) National eligibility criteria

National Contact Point	Name: LOUCIF SEIAD Mohamed Tel: +213 (0) 21 27 88 18 E-mail: m.loucif@dgrsdt.dz Name: Pr HALOUANE Fatma E-mail: F.Halouane@dgrsdt.dz Tel: +213 (0) 21 27 79 44
Eligible entities	Research entities (Research team, Research division, Research Centre, Research Unit, Research laboratory, Universities, socio-economic entities with R&D entities).
Eligible type of research and TRL	Type of research (fundamental, basic research, industrial research/applied research, experimental development...) TRL- 2 to 8
Submission of proposal /documentation at national/regional level	<ul style="list-style-type: none"> • Submit the pre-proposal/proposal before the online submission to the DGRSDT email (sdpir@dgrsdt.dz), • Pre-proposals/ proposal, must include the following documents: <ul style="list-style-type: none"> - Endorsement Letter: A scanned copy of the signed and stamped endorsement letter from the legal representative of project coordinator's (PC) or the Principal Investigator's (PI) institution. The letter must include: Project title, PI's name, position, and affiliation, - A statement confirming that the project has not been funded or submitted to another agency (national or international), - CVs for all team members (5 max). - A detailed budget in Euros must be included, prepared according to the NR, and signed and stamped by the Legal Representative of the University or Research center. • Contacting Algerian NCPs via the V-Relex
Eligible costs (personnel cost, materials, travel cost, workshops, sub-contracting...)	The costs must directly support the objectives of the project and be incurred within the project timeline, within the limits of the allocated budget. The eligible expenses are as follows: <ul style="list-style-type: none"> • Small equipment, furniture, tools, scientific instruments and consumables. • Reimbursements include costs for scientific events and meetings (organization, accommodation, catering, transport), services provided to the research entity, and registration/participation fees for conferences.

	<ul style="list-style-type: none"> • Travel expenses (up to 20% of the total budget) • Essential services (e.g., sample manufacturing and analysis, intellectual property, access to databases, publication and patent filing fees) • Maintenance of scientific and IT equipment, <p>Further information on budget criteria can be obtained from the local administration.</p>
<p>Maximum funding per awarded project/per Partner (local currency and Euro amounts)</p>	<ul style="list-style-type: none"> • 50,000 Euro for the Algerian partners
<p>Additional eligibility criteria</p>	<p>Referring to Algerian Regulation and the Funding Agency Regulation</p> <ul style="list-style-type: none"> • The PC/PI should not participate in any other project as PC/PI in the same call. • An applicant, who is already participating as a PC/PI in two running DGRSDT projects, is not eligible for funding. • The PC/PI must sign an agreement with the DGRSDT/MESRS after the project is selected. • The PC/PI is required to submit annual and final reports without prior notification. • Private sector is welcomed to participate with its own fund.

BULGARIA

BULGARIAN NATIONAL SCIENCE FUND

NATIONAL REQUIREMENTS AND ELIGIBILITY CRITERIA

The Bulgarian National Science Fund (BNSF) is the national funding and coordination body responsible for the implementation of the PRIMA programme in Bulgaria.

Address:

Al. Stamboliyski Blvd., 239 B,
1309 Sofia
Bulgaria

<https://bnsf.bg/>

1. National contact point details

Legally authorised representative:

Name: Prof. D.Sc. Yuri Kalvachev
Function: Manager of the BNSF
Phone: +359 886 606 098
Email: kalvachev@mon.bg

For this collaborative activity, our contact person is:

Name: Milena Aleksandrova
Function: Senior Expert
Phone: +359 884 171 363
Email: aleksandrova@mon.bg

2. Applicant eligibility criteria

Eligible applicants under the present call are Bulgarian entities, which are either:

- 1) Accredited universities under Art. 85 Para. 1 item 7 of the Law on Higher Education, which have accredited doctoral programmes by the National Evaluation and Accreditation Agency.
- 2) Research organizations under Art. 47 Para. 1 of the Law on Higher Education, which have accredited doctoral programmes by the National Evaluation and Accreditation Agency and scientific organizations, according to §1, item 1 of the Supplementary Provisions of the Law on the Promotion of Scientific Research and Innovation.

Applicants under PRIMA calls must be directly responsible for the implementation of the activities of the project proposal, and not act as intermediaries; they must perform the proposed project activities on their own behalf and at their own expense.

3. Funding

The total commitment for two projects is up to EUR 500 000. The maximum amount of the funding available for the first stages of these contracts in 2025 should be up to EUR 250 000. Only costs directly related to the proposed research activities are eligible for financing under this call. Activities financially supported by other sources are not eligible for financing.

The requested budget is fixed no matter if the Bulgarian team is acting as a coordinator or as a partner within a project.

4. Eligible cost categories

Financial resources under the project of Bulgarian participants are managed in compliance with the Rules of the Bulgarian National Science Fund, within the general rules of the PRIMA call, and as per the Instructions adopted by the Executive Board.

Funding under the present procedure shall be awarded only for "eligible costs", specified in the general rules of the call announced under the PRIMA programme. The project budget (as per the financial plan) is a preliminary assessment of expected costs and should correspond to the value indicated in the project.

Eligible direct costs:

1. Personnel costs;
2. Travel costs and subsistence allowances;
3. Equipment or other assets;
4. Consumables and supplies;
5. Subcontracting;
6. Workshops, seminar, conferences;

The above categories represent an exhaustive list of possible eligible direct costs. However, if, for example, the project does not foresee costs for workshops / seminars / conferences, then this category of costs can be left empty in the estimated budget.

Eligible indirect costs:

Incurring in carrying out the project are eligible for a flat-rate funding capped at not more than 8% of the total eligible direct costs (Up to 7% threshold for the applying organization and up to 1% threshold for audit).

All budget items must be justified and eligible and all costs must be incurred during the period of the project duration. Applicants are advised to contact and consult the national contact point for the pre-eligibility check.

5. Project reporting

Beneficiaries must keep accurate and regular project documentation. Beneficiaries are obliged to keep analytical accounting and documents related to the eligible project costs corresponding to the spending of the funds awarded by the Bulgarian Science Fund as per the grant contract.

The project leader is obliged to present to the Fund the Project Report within 30 days from the date of completion of the entire project and of each project phase.

6. Submission of proposals

The Transnational Proposals are submitted, centrally, to the PRIMA website, by the Coordinator of each Transnational Proposal, according to the rules and procedures defined in the PRIMA Call Text and Supporting Information.

Applicants have to submit an application form for national eligibility when submitting the proposal. The formular should be filled and electronically submitted in both Bulgarian and in English at:

<https://eumis2020.government.bg/>

Forms and declarations should be signed either with electronic signatures or signed and scanned. When submitting electronically, all documents must be submitted in the appropriate positions of the electronic submission form for project proposals. The final submission is made using an electronic signature by the head of the base organization.

CROATIA

NATIONAL GUIDELINES FOR APPLICANTS FOR THE IMPLEMENTATION OF PRIMA PROGRAMME IN THE REPUBLIC OF CROATIA – CALL 2026

The Ministry of Science, Education and Youth of the Republic of Croatia (hereafter: MSEY) is the national funding and coordination body responsible for the implementation of the PRIMA programme in the Republic of Croatia. As such, MSEY hereby prescribes the National Guidelines for Applicants for the Implementation of PRIMA Programme in the Republic of Croatia (Call 2026). These guidelines provide information regarding national participation criteria, including scientific criteria, funding, consortium composition and other relevant requirements and information for Croatian project partners.

FUNDING BODY DETAILS

National funding body	Acronym	Address	Telephone	Fax
Ministry of Science, Education and Youth of the Republic of Croatia	MSEY	Donje Svetice 38 10 000 Zagreb, Republic of Croatia	+385 1 4569 000	+385 1 4594 301

NATIONAL CONTACT POINT DETAILS

NCP name and surname	E-mail	Telephone Number
Mateo Ante Bosnić	MateoAnte.Bosnic@mzom.hr	+38514594166

1. NATIONAL PARTICIPATION CRITERIA

1.1. Terms and conditions of eligible entities

MSEY funding is limited to Croatian project partners only. Croatian project partner can be a consortium (consisting of at least two national legal entities) or a single legal entity.

Eligibility criteria for Croatian project partners are as follows:

- Research organizations:
 - public research institutes
 - public higher education institutions
 - other legal entities performing research activity
- Other legal entities performing research activities:
 - non-governmental and non-profit organizations (NGO's) or institutions whose main objective is research activity or research and development activity registered by the Ministry of Justice, Public Administration and Digital Transformation or other relevant national body.

- micro, small and medium enterprises (SME's) entered in the relevant National Register (Court or Craftsmen) and registered to perform research and development activities.
- other public organizations, only in consortia with institution(s) registered for research activity.

Applicants are required to notify the National Contact Point of their project application prior to the project submission in order to undergo a pre-eligibility check.

Relevant project details must be provided, including Croatian project partners and consortium information.

Partnership between research organizations with SME's is encouraged but not mandatory. Additionally, other legal entities from business sector that are not SME's can apply as project partners, but must ensure their own funding for participation in the project activities, as they are not eligible for the MSEY funds. Croatian project partner can submit up to three project proposals to this Call. A single legal entity can participate in up to three different transnational or national consortia with three different project proposals. Project proposals already funded under other financial instruments and/or Calls are not eligible and will not be reviewed under this Call. The activities described in the submitted project proposal must be original and unique, meaning they should not be similar to any ongoing or completed projects funded by other financial instruments, programmes or projects.

1.2. Croatian Principal Investigator

Croatian project partner must be represented by one Principal Investigator. The Principal Investigator must be employed under an employment contract with the Croatian institution participating in the transnational consortium and must hold a Ph.D. degree. The Principal Investigator is responsible for submission of all reports to the MSEY.

If the Croatian project partner is the project coordinator, they must designate a Principal Investigator who will oversee the implementation of the project and provide continuous reports to the PRIMA-Secretariat (PRIMA-IS).

2. REPORTING REQUIREMENTS

Croatian project partner receiving funds under this Call will be monitored by the MSEY. They are required to submit annual and final financial and narrative reports on the project's progress. MSEY has proscribed a form for annual and final reports that need to be adhered to.

Financial and narrative reports must be submitted at the end of every project year, no later than 30 days after the last date of the project year.

The final financial and narrative report must be submitted after project completion, no later than 60 days after the project's end date.

3. FUNDING

3.1. Maximum limit requested per partner/country/proposal

Only costs directly related to the proposed research activities are eligible for funding under this Call. Activities funded from other sources are not eligible for funding. The applicant must ensure that there is no double funding during the project implementation.

Total available budget for 2026 Call for Croatian project partners is EUR 500.000.

Funding will be awarded to the highest-ranked project proposals based on merit-based evaluation criteria, subject to budget availability.

3.2. Eligible project budget and project duration

The maximum project budget for Croatian project partner per project is EUR 150.000. If Croatian partner is the project coordinator, maximum budget per project can be EUR 200.000. Projects lasting up to 36 months are eligible for funding.

3.3. Funding rates

- a) For Private Sector applicants/project partners: the maximum funding rate of eligible costs is **70%**.
- b) For Public Sector applicants/project partners: the maximum funding rate of eligible costs is **100%**.

3.4. Thematic areas and topics to be funded

All proposed PRIMA topics and thematic areas for Section 2 are eligible for funding by MSEY for Croatian applicants.

3.5. Eligible costs categories

For Croatian applicants, general Horizon Europe rules on eligible and ineligible costs apply. These rules can be found in the Annotated Grant Agreement (AGA) for the Horizon Europe Programme¹.

All budget items must be justified and eligible, and all costs must be incurred during the project duration. Applicants are advised to contact and consult the national contact point for a pre-eligibility check.

For legal and financial questions, applicants are advised to contact national contact points for Horizon Europe Programme for Legal and Financial aspects².

The funds will be granted to the Croatian project partner if the project is positively evaluated by the PRIMA-Secretariat (PRIMA-IS) and validated by the MSEY.

3.6. VAT eligibility

For Croatian applicants, the general Horizon Europe rules apply regarding the VAT eligibility.

- a) Non-profit legal entities: VAT is an eligible cost if the entity is not entitled to a tax deduction. In such cases, VAT should be recorded in the accounts.
- b) For-profit organizations: VAT is not an eligible cost and is not included in the final project cost.

3.7. Subcontracting rules

Subcontracting for the sake of performing and implementing certain tasks/activities that are a part of the main project activities, is allowed and considered to be an eligible cost. More information regarding subcontracting rules can be found in the Annotated Grant Agreement (AGA) for the Horizon Europe Programme.

CYPRUS

FUNDING BODY

CYPRUS

Research and Innovation Foundation

NATIONAL CONTACT POINT

Andreas Hadjistylli

Tel: +357 22205073

Email: ahadjistylli@research.org.cy

Beneficiaries:

Research Organisations, Enterprises, Other Organisations (Other Private Sector Organisations or Public and Broader Public Sector Organisations).

Each Cypriot Consortium participating in a proposal may consist of up to three (3) participating organisations.

Project Activities:

The projects may include Industrial Research and/or Experimental Development activities (Depending on the National Call). Projects must fall within Technology Readiness Levels (TRL) 3-8 in compliance with the relevant definitions adopted by the EU.

The Cypriot Consortium should necessarily be involved in Industrial Research and/or Experimental Development activities. The participation of Cypriot organisations that will only undertake dissemination activities in the transnational project is not eligible.

Dissemination activities are eligible only for those entities which fall under Category A (Research Organisations) and C2 (Other Public and Broader Public Sector Organisations).

Duration of Project Implementation:

24 - 36 months.

Maximum Funding per Project (For the Cypriot Consortium):

€155.000 for the Cypriot Consortium.

Eligible Costs:

Personnel costs, Instruments and Equipment Costs, Costs for External Services, Costs for Travelling Abroad, Consumables, Other Specific Costs, Overheads (up to 20% of the direct costs).

Costs on dissemination activities is only eligible for organisations falling under Category A (Research Organisations) and C2 (Other Public and Public Sector Organisations).

Dissemination Activities:

All activities pertaining to dissemination and exploitation of the research project results (Cost Categories “Costs for External Services” and “Other Specific Costs”), even those to be carried out after the completion of the project implementation, must acknowledge the RIF financial support with the use of logos and/or appropriate reference.

VAT Eligibility:

VAT is eligible only in the cases where the beneficiary has no obligation or right to register in the VAT Registry or cannot recover VAT on revenue stemming from research activities. In order to consider VAT as an eligible cost, the beneficiary must submit to the RIF the relevant correspondence with the VAT Commissioner proving the above. Until submission of said correspondence, VAT shall be deemed non-eligible.

Subcontracting Rules:

The Costs for external services must not exceed 10% of the total project budget pursuant to the Project Contract and 40% of the budget of the organisation implementing the cost.

Submission rules

The Transnational Proposals are submitted, centrally, to the PRIMA website, by the Coordinator of each Transnational Proposal, according to the rules and procedures defined in the PRIMA Call Text and Supporting Information (Guidelines).

In addition, for every Transnational Proposal with Cypriot Participation, **the Coordinator of the Cypriot Consortium will have to submit a corresponding Proposal on the Research and Innovation Foundation’s IRIS Portal (<https://iris.research.org.cy>), no later than the deadline specified in the National Call for Proposals. The submission of Proposals to the IRIS portal is an eligibility condition for RIF. Therefore, Cypriot organisations participating in Proposals submitted to the PRIMA platform but not submitted to the IRIS portal will not be eligible to proceed to the next stage.**

The Proposals submitted on RIF’s IRIS Portal include only general information regarding the Transnational Proposal (Title, Acronym etc), the Coordinator of the Cypriot Consortium and the partner organisations of the Transnational Consortium (including the Cypriot organisations) as well as analytical budget for each partner participating in the Cypriot Consortium. The Coordinator of the Cypriot Consortium and all Cypriot organisations participating in a PRIMA Transnational Proposal **should register in advance on the IRIS Portal.**

Potential applicants are advised to use the «**Guide for Applicants**», which contains guidelines and clarifications regarding the Submission procedure and the «**IRIS Portal User Manual**» which can be found on the **IRIS Portal (<https://iris.research.org.cy/#/documentlibrary>)**.

Links and references to find specific (national) requirements:

Coordinators of the Cypriot consortium are kindly requested to check the **national Call document before the submission of their proposal.**

<https://iris.research.org.cy/#/calls>

EGYPT ASRT

Country:	Egypt	
Funding Organisation:	Academy of Scientific Research and Technology (ASRT)	
National Contact Point (NCP)	Eng. Asmaa Abdellah	Email and Phone: prima.asrt.ncp@gmail.com +20227920126
Eligible Institutions	This call is open to Public Egyptian legal entities established and based in Egypt. The Egyptian partner could be: research institutes, academic, non-academic organizations but not private sector. All private sectors are not eligible for ASRT funding under this call.	
Eligible Applicants	<p>Egyptian legal entities established and based in Egypt. Egyptian PI must not participate as PI in more than two ongoing projects funded by the Academy.</p> <p>The Egyptian Team must follow the National regulation “general contractual conditions “for the Academy of scientific research and technology.</p> <p>ASRT through PRIMA section 2 encourages proposals from all eligible organisations and particularly those with limited or no prior PRIMA section 2 funding history, and particularly supports submissions from new and early-career investigators and institutions to help broaden participation.</p>	
Eligible Costs	<ul style="list-style-type: none"> - Incentives up to 25% of the total requested contribution (per Egyptian applicant) - Costs that are necessary for fulfilling the objectives of the project and include, but not restricted to, manufacturing of specimens & prototypes, IP protection and publication, acquiring access to specialized reference source databases or computer software, fees for use of facilities in other national institutions, etc. - Materials, kits and consumables. - Equipment (shall be fully justified) - Travel and subsistence costs. Daily subsistence costs are calculated according to the current governing rules of the Mission Directorate, Ministry of Higher Education, and depending on the visited country. Sometimes are limited by the host institution’s internal regulations. The most economical means of transport consistent with effective pursuit of the project should be used. Upgrades to business class are to be done at one’s own expense. - Organisational costs of events and projects’ meetings. - Overhead cannot exceed 5% of the total requested fund. 	

	<p>The budget of the following activities shouldn't exceed 5% of the Egyptian Applicant's requested funding: Activities that are supporting academic teaching programs, websites launch, design and development of original teaching tools.</p>
<p>Funding commitment: 15M Euro for 10 years : 1.5M Euro per year</p>	<p>Maximum Amount Per Proposal:</p> <ul style="list-style-type: none"> • 150,000 Euro if the Egyptians Is normal partner • 175,000 Euro If the Egyptians are the coordinator of the proposal
<p>Relevant documents</p>	<p>National Regulations (http://www.asrt.sci.eg)</p>
<p>Additional Info</p>	<p>The conditions of execution and financing of the projects upon the completion of the selection process shall be defined in the grant award agreements, where the body selected for financing will sign an agreement with the Academy of Scientific Research and Technology.</p> <p>ASRT funds these fields: farming system, Agri-food value chain.</p> <p>The national submission is not required.</p>
<p>Useful Links</p>	<p>www.asrt.sci.eg</p>

EGYPT STDF

National Regulations of STDF (Egypt)

1. **Name of the Funding Agency, address and country**
Science, Technology & Innovation Funding Authority (STDF)
Address: The Ministry of Higher Education and Scientific Research,
Government District, New Administrative Capital, Egypt.
2. **National Contact Point:**
The contact person for internal PRIMA communication:
Eng. Marwa Alaa
Email: marwa.alaa@stdf.eg
3. **PRIMA Contact Point:**
The contact point to be contacted by national applicants for information during the call:
Dr. Radwa Fathy
Email: radwa.fathy@stdf.eg
4. **Scientific criteria:**
 - **Thematic Area 1-Water management in the Nexus**
Topic 2.1.1-2026 (RIA*30) Leveraging Ecosystem Functions and Enhancing Water Allocation for the Protection and Restoration of Non-Perennial Watercourses in the Mediterranean.
 - **Thematic Area 2-Farming systems in the Nexus**
Topic 2.2.1-2026 (RIA*31) Novel remote and non-invasive ICT monitoring and control systems against disease and pest infestation.
5. **Participation criteria**
 - Beside the original version of pre-proposal/proposal submitted by on PRIMA platform, the Egyptian PI should submit another identical version of the pre-proposal/proposal on STDF website (www.stdf.eg). It is a must in order to pass the eligibility stage.
 - Research proposals may be submitted by an **Egyptian PhD holder, affiliated to an Egyptian research institution (Universities, Research Centres)**
 - Proposal should include:
 - A scanned copy of the **signed and stamped endorsement letter** by the legal representative - the president- of the PI's institution stating the project title, the name, position and affiliation of the PI in charge of the proposal, that the project idea was not funded or submitted to another agency (national or international), or otherwise declare, and that the institution approves the project.
 - CVs, should be attached according to STDF template.
 - **Budget table (in Euro)**, should be attached according to STDF template.
 - Budget table should be signed and stamped by the president of the University/research centre.
 - An applicant, who is already participating as a principal investigator (PI) in two running STDF projects or participating as a team member in three running STDF projects, is not eligible for funding.
 - The PI & Co-PI can't contribute with a less than 40% of their time and the contribution of any team member can't exceed 80% (in all the submitted/running projects).
 - The PI should not participate in any other project in the same call.
 - Conflict of interest should be avoided.
 - STDF take issues of Infringement of Academic Integrity, plagiarism, similarity or other breaches very seriously. To verify originality, your Proposal may be checked by the originality detection

service and Similarity Check. Accordingly, the proposal must be submitted in a readable PDF format (i.e., not scanned) to facilitate the plagiarism checks. By submitting your proposal to STDF you are agreeing to originality checks.

Note:

- Upon proposal acceptance, project contracts are made between three parties: STDF, the legal representative of the host institution, and the PI of the project (each project is expected to be managed by only one PI and his affiliation).
- The fund is allocated to both the host institution and the PI, administered by the host institution's financial department, and managed by the PI of the project. Non-governmental host institutions are requested to either submit a Letter of Guarantee against the amount of fund, or follow a post-activity milestone payment schedule.
- Private sector is welcomed to participate with its own fund.
- Contracting of projects are pending finalizing administrative approvals and permits from relevant authorities.
- The consortium may include multiple Egyptian institutions, but they will be treated as a single partner. There will be one responsible Principal Investigator (PI), with a budget up to 200,000 Euros and if the Egyptian PI is the project coordinator, the budget can be increased to 250,000 Euros."
- The PI and CO-PI should be affiliated to the same institution.
- The role of the Egyptian partner should be clearly defined in the proposal.

6. **Funding criteria:**

Each project can receive up to:

- 1- 200,000 Euro
- 2- 250,000 Euro (If the Egyptian Partner is the coordinator of the project)

The amount of funding is divided into instalments, to be disbursed upon the acceptance of periodic technical and financial progress reports and it will be disbursed in the local currency (Egyptian Pounds).

Eligible costs:

- Incentives for the project's team/Personnel cost: Incentives are allowed for members of the project team and must not exceed 25% or 2,000,000 LE, whichever is less of the Egyptian Total Project Budget. Also, STDF abides by its approved scheme for incentives which takes into consideration each team member's academic credentials and the percentage of time spent on performing the project's activities.
- Equipment, spare parts, expendable supplies and material: Funds required for the purchase of equipment, spare parts, expendable supplies and material required to fulfil the objectives of the project are allowed.
- Services: Services necessary for fulfilling the objectives of the project are allowed. These include manufacturing of specimens & prototypes, registration and protection of the IP and publication, acquiring access to specialized reference source databases or computer software, fees for use of facilities in other national institutions, etc.
- Events: In general, all costs directly related to the preparation, implementation and/or attendance of events like workshops, conferences, training courses etc. are eligible.
- Travel: Travel should not exceed 20% or 1,000,000 LE, whichever is less of the Egyptian Total Project Budget. The most economical means of transport consistent with effective pursuit

of the project should be used. Upgrades to business class are to be done at one's own expense.

- Daily subsistence (per diem) allowance: Calculated according to the current governing rules of the Mission Directorate - Ministry of Higher Education - and depending on the visited country. Sometimes it's limited by the internal regulations of the PI's institution.
- Indirect cost: Costs incurred by the PI's institution in order to facilitate performing project activities, support financial administration, manage the facilities, etc. (overheads).

Indirect Cost must not exceed 10% of (Total Direct Cost minus Equipment cost) or 150,000 LE, whichever is less.

Note:

Egyptian Total Project Budget is equal to the Total Direct Cost plus the Indirect Cost.

7. Consortium agreement is not mandatory and not binding if it violates STDF regulations.

NATIONAL FUNDING REGULATIONS

The legally binding regulations for German applicant institutions are specified in BMFTR's national funding announcement for the PRIMA-programme, to be published on in the Federal Gazette (*Bundesanzeiger*).

The announcement is available on the following website:
LINK will follow.

Eligible thematic topics and activities

Grants will be issued for research and development activities in all thematic areas and all topics of Section 2. Projects that focus merely solely on management, dissemination and exploitation activities cannot be funded.

Funding recipients

Research proposals may be submitted by German research institutions, universities and companies (in particular small and medium enterprises – SME) based in Germany.

Research institutions receiving basic funding from the Federal Government and the *Länder* can only be granted funds to cover extra expenditure in addition to their base funding.

Applicants are advised to liaise with the National Contact Point to check the eligibility as to who may apply and what costs are eligible, before a consortium submits an application.

Scope and amount of funding

The maximum budget per German partner per proposal is 350.000 EUR. If a German partner is coordinator of a proposal, the maximum amount of funding requested can reach 500.000 EUR. If there are several German partners in the same consortium, the max. total commitment from BMFTR is 600.000 EUR per consortium.

The budget calculation of German applicants shall cover direct/indirect costs and a lump sum of 20% for universities, if requested (see below). The “total indicated amount allocated to the call” and the “expected number of grants”, as set out in the Annual Work Plan (“Supporting information for Section 2 Call for Proposals”-AWP 2025), should be considered as guidance on the expected financial volume of the project.

Scope of funding

For universities, research and scientific institutions and similar institutions the basis for assessment basis are the eligible project-related expenditures (at Helmholtz centres and the Fraunhofer-Gesellschaft the eligible project-related costs), which can be individually supported up to 100%. The grants for SMEs are calculated on the basis of the total project-related costs eligible for funding.

The European Commission's Community Framework for State Aid for Research and Development must be taken into account when calculating the respective funding ratio. This Community Framework allows a differentiated bonus arrangement for collaborative projects involving small and medium-sized enterprises (SMEs), which may result in a higher rate of funding.

Eligible expenditures/costs

Activities eligible for funding in joint research projects include research and development activities, coordination activities, capacity building, training and the organization of workshops.

Dissemination activities and travel expenses for congresses, fairs or conferences are eligible for funding only in justified cases.

A) Direct costs

• Costs of personnel

Costs of scientific staff, technical staff and/or student assistants, required in connection with the proposed project can be funded.

• Costs of durable equipment

Funding for equipment can be provided. However, this only includes equipment that does **not** form part of an institution's basic equipment (i.e. no laptops, notebooks or equipment which is regularly used by the applicants).

• Consumables and supplies

Any consumables necessary for the project implementation (expendable items, devices, business needs, transportation expenses, literature, rents, orders, etc.) may be considered as direct costs. Consumables are only eligible costs if bought after the start date of the project. Consumables belonging to the basic facilities of an applicant are not eligible.

- Subcontracting

The general rule applies that applicants shall implement the project and shall have the necessary resources to that end. However, it should be accepted that as an exception, certain parts that are not "core" parts of the project may be subcontracted, such as rent of locations, translation costs, costs for technical equipment in the context of the organization of events or printing services etc. The EU regulation on public procurement has to be considered:

<https://eur-lex.europa.eu/legal-content/DE/TXT/?uri=celex%3A32014L0024>

Subcontracting of international PRIMA project partners is not possible.

- Events

Workshops with already known partners or workshops aiming at the development of new cooperation potentials can be funded in Germany as well as in the partner country. For the execution of workshops various expenses / costs can be funded. This includes, for example, the accommodation of guests, transfers, the provision of workshop documents, appropriate catering for the participants and the rental of premises.

- Travel costs

Project related expenses / costs for travels and stays of German scientists and experts can be funded. Travel and stays of foreign scientists and experts can only be funded in well-justified exceptional cases. Please consult the national funding announcement of the BMFT for the PRIMA-programme in the Federal Gazette (*Bundesanzeiger*) for specific regulations on travel costs.

B) Indirect Costs and overheads

Overhead costs are eligible depending on the type of institution as well as on the respective accounting system. Universities (public/non-public) and university hospitals (regardless of their legal status) can apply for an additional lump sum of 20% (*Projektpauschale*) of the requested funding for research projects. In case of requesting the lump sum the applicants should consider cost for the additional lump sum already in the preparation of the proposal.

Application procedure

For Section 2 proposals with German applicants the application process has two stages and is structured into

- 1) an international part, according to the procedures of PRIMA (Elaborated project outlines are to be submitted according to the PRIMA rules for application), and
- 2) a national part, according to the German funding regulations (German applicant institutions whose project outlines have been reviewed positively will be invited to present a formal application for funding according to the national German funding regulations).

FURTHER SPECIFIC REGULATIONS

Projects with German participation must not have started before the grant will be issued. Only costs arising after the start of a project, as fixed in the grant agreement, are eligible. Funding is provided upon the conclusion of a consortium agreement prior to the start of the project.

GREECE

GREEK NATIONAL REGULATION FOR THE PRIMA SECTION 2

“Transnational open and competitive Calls funding by participating Member States.”

- **Funding body details (country, name and acronym).**
Hellenic Republic (Greece), General Secretariat for Research and Innovation of the Ministry of Development (GSRI), <https://gsri.gov.gr>
- **National Contact Point details.**
 - Georgia Anousaki, g.anousaki [at] gsrt.gr, Tel.: +30 213 13 00 128
 - Georgia Leontopoulou, leontopoulou.g [at] gsrt.gr, Tel.: +30 213 13 00 091
 - Michael Gkoutoulas, m.gkoutoulas [at] gsrt.gr, Tel.: +30 213 13 00 094

Important notice!

Submission of the proposal at national level

Each Greek partner participating to a proposal submitted to PRIMA shall also submit in digital form to GSRI, in Greek language, a short proposal description, providing more details regarding the work undertaken by Greek partners, within 10 working days after the first and the second stage submission deadline.

○ **National criteria:**

These rules are additional to the terms and conditions described in the PRIMA call for proposals text for Section 2.

The National Implementation guide and the national call, contain detailed information about eligible costs per activity and type of beneficiary. Therefore, applicants are strongly advised to read the PRIMA call for proposals text, the present document and the regulations published at the GSRI site carefully. They may also consult the national contact points listed above.

✓ **Participating Thematic Areas**

All thematic areas and topics of the Prima AWP 2026 are eligible for Greek partners.

✓ **Double funding**

The project submitted for funding must neither have already benefited from public funding nor be redundant or overlap with projects or part of projects already funded. GSRI will ensure that double funding is avoided and will not grant projects or parts of projects already funded.

In case of undertakings, aid with identifiable eligible costs may be cumulated with:

- (a) any other State aid, as long as those measures concern different identifiable eligible costs,**
- (b) any other State aid, in relation to the same eligible costs, partly or fully overlapping, only if such cumulation does not result in exceeding the highest aid intensity or aid amount as defined above.**

- ✓ Costs are eligible at the earliest after the date of submission of the application for funding to GSRI. Costs incurred before that date and/or after the duration of the project are not eligible. The date of the eligibility of the costs, the starting date of the project and its duration will be defined in the funding decision issued by GSRI.

Participation criteria: *Eligible applicants (Type or nature of participants)*

GSRI potentially supports all private and public legal entities legally operating in Greece namely:

- a) Undertakings (a private and/or public sector legal entity, regardless of its legal status or size, engaged in economic activity)
- b) Research performing and knowledge-dissemination organizations (e.g. Higher-education Institutions or Research Centres/Institutes)
- c) Other entities that will be considered as Research and knowledge-dissemination organizations, if respective requirements are met

Apart from natural persons the following categories of undertakings are also not eligible:

- An “undertaking in difficulty” (according to Reg. EU 651/2014, art.2).
- An undertaking which is subject to an outstanding recovery order following a previous Commission decision declaring an aid illegal and incompatible with the internal market.

○ **Maximum limit requested per partner / per country / per proposal.**

The maximum amount of public funding will not exceed:

- per partner: 200.000 € (250.000 € in case of project coordinator)
and
- per proposal: 400.000 € (450.000 € if the proposal is coordinated by a Greek entity)

○ **Funding criteria: total budget**

The allocated budget for the Call 2026 is 1.750.000 €.

○ **Eligible costs per activity and type of potential beneficiary:**

A. Research and Development activities: activities falling within one or more of the following categories: fundamental research, industrial research, experimental development, feasibility studies.

It is stressed that R&D activities are mandatory for each Greek partner of the transnational collaborative project.

Beneficiaries:

(a) Any entity performing economic activities (Undertakings)

Eligible costs and maximum aid intensity are subject to the provisions of art.25 of Regulation EU 651/2014 (General Block Exemption Regulation-GBER).

(b) Research performing and knowledge-dissemination organizations

(c) Other entities that are treated as Research and knowledge-dissemination organizations under specific conditions.

In particular, beneficiaries qualify for types (b) or (c) if they fulfill the conditions stipulated in the “Framework for State aid for research and development and innovation” (2014/C 198/01) for public funding of non-economic activities. In this case the funding rate can amount to 100% of eligible costs.

Eligible Costs (direct costs)

(i) Personnel costs: researchers, technicians and other supporting staff to the extent employed on the project;

(ii) Costs of instruments and equipment (depreciation costs);

Especially in the case of beneficiaries under types (b) or (c) or are treated as such (type c), costs for the acquisition of instruments and equipment are also considered eligible.

- (iii) Costs of buildings (depreciation costs) and land, to the extent and for the duration period used for the project. For land, costs of commercial transfer or actually incurred capital costs are eligible;
- (iv) Costs of contractual research, knowledge and patents bought or licensed from outside sources at arm's length conditions, as well as costs of consultancy and equivalent services used exclusively for the project;
Subcontracting costs should not exceed 30% of the total budget and they should be well justified.
- (v) Other expenses, including costs of materials, consumables and similar products, travelling costs, dissemination costs etc. incurred directly as a result of the project.
- (vi) Costs of the feasibility study

B. Innovation activities

Eligible for potential beneficiaries that qualify as:

- (a) SMEs: eligible costs and aid intensity are subject to the provisions of art.28 of GBER (Reg 651/2014)
- (b) Research and knowledge-dissemination organizations
- (c) Other entities that are treated as Research and knowledge-dissemination organizations under specific conditions.

Eligible costs:

- (i) Costs for obtaining, validating and defending patents and other intangible assets;
- (ii) Costs for the secondment of highly qualified personnel from a research and knowledge-dissemination organization or a large enterprise, working on research, development and innovation activities in a newly created function within the beneficiary and not replacing other personnel;
- (iii) Costs for innovation advisory and support services;

The aid intensity for SMEs shall not exceed 50% of the eligible costs.

C. Aid to SMEs for participation in fairs

Eligible for potential beneficiaries that are SMEs.

Eligible costs and aid intensity are subject to the provisions of art.19 of GBER (Reg 651/2014).

Eligible costs:

Eligible costs shall be the costs incurred for renting, setting up and running the stand for the participation of an SME in a particular fair or exhibition, given that such participation is directly related to the funded project. Participation in a trade fair for products or services in which the SME is already active is not eligible.

The aid intensity shall not exceed 50% of the eligible costs.

This activity (cost category) is not eligible for enterprises operating in primary agricultural sector and the fishery/aquaculture sector.

D. Training and mobility activities

Eligible for potential beneficiaries that are qualify as:

- (a) Research and knowledge-dissemination organizations
- (b) Other entities that are treated as Research and knowledge-dissemination organizations under specific conditions.

Eligible costs and funding level:

The costs for transnational mobility of both Greek and foreign graduates, PhD students, post-doctoral students and researchers from or to Universities, research centers and research organizations, for a short period, are eligible. The maximum monthly cost for the relevant research organization (host organization or origin organization) is 3000 €. It will include travel expenses, subsistence expenses, daily allowance according to the law 4336/ 2015, in particular the articles 2, 5, 17, 23).

E. Indirect costs and overheads

Eligible for potential beneficiaries that qualify as:

- (a)** Research and knowledge-dissemination organizations
- (b)** Other entities that are treated as Research and knowledge-dissemination organizations under specific conditions.

Indirect costs should not exceed 5% of the budget (excluding VAT and subcontracting costs).

- **Dissemination activities.**
While not obligatory, it is highly recommended that both dissemination and communication activities are included.
All activities pertaining to this category, even those to be carried out after project completion, must acknowledge the GSRI financial support and PRIMA labelling requirements with the use of logos and/or appropriate reference. In the event of non-compliance with the above, the relevant expenditure may be deemed ineligible, resulting in the recovery of part or the entire relevant amount disbursed.
- **Capacity building, training and mobility**
See above under "D. Training and mobility activities"
- **VAT eligibility.**
Only not reclaimable VAT is eligible.
- **Subcontracting rules.**
Subcontracting costs should not exceed 30% of the total budget of the Greek Partner and they should be well justified.
- **Non-eligible costs (Non-exhaustive list):**
 - any costs not directly related to the specific aided project but related instead to other research and development activities of the beneficiaries, or to their regular activities
 - any profit
 - excessive expenditure or expenditure of no avail
 - costs for advertisement, distribution and promotion of commercial products and activities
 - any forecast for possible future damages or debts
 - any interest or return on invested capital
 - unsubstantiated debts
 - entertainment costs
 - costs pertaining to other projects that have been funded by third parties

Please note that detailed information about eligible costs per activity and type of beneficiary is included in the National Implementation guide. Applicants are advised to read it carefully before submitting a proposal.

- **Consortium agreement requirements.**

The consortium agreement should be submitted in English and sent to GSRI before the first instalment.

GENERAL SECRETARIAT FOR RESEARCH AND INNOVATION (GSRI)

Name(s): Dimitrios Terzis

Title(s) / Position: General Secretary for Research and Innovation

Signature(s) and stamp of the organisation:

ISRAEL IIA

ISRAEL MOST

Funding Party:

Ministry of Innovation, Science and Technology

**Ministry of Innovation,
Science & Technology**

Funding Programme:

Specific Programme on International Research Cooperation on PRIMA section 2

Procedure for Financing Israeli Partners by the Ministry of Innovation, Science and Technology under Sub-Programs for the European Framework Program

National/Regional Contact Point:

Ministry of Innovation, Science and Technology (MOST)

contact person:	email:	telephone:
Moshe Ben-Sasson	MosheBS@most.gov.il	+972 254 11134

Eligibility criteria of Ministry of Innovation, Science and Technology (MOST):

Proposals must meet the following preconditions. Proposals that do not meet the preconditions will be automatically rejected and will not be passed on to the scientific committee for review and evaluation.

1. Proposals must be conducted by an Israeli scientific research team as part of the joint research team.
2. Each joint research team must be led by a Principal Investigator - Project Coordinator" (PI-PC) from each country.
3. All Principal Investigators (PIs) from Israel must be affiliated with an academic institution, meaning:
 - i. An accredited institution of higher education in Israel, according to the Council for Higher Education Act, 1958.
 - ii. A research institute, which is a non-profit organization, a government company or a governmental unit.

For the purposes of this Call a "Research Institute" in Israel is a research institute whose main activity is the advancement of cutting-edge scientific knowledge, which possesses appropriate infrastructure and equipment, which employs researchers who, inter alia, publish articles related to their research in leading peer- reviewed scientific journals, and who present their research at international scientific symposia. For the avoidance of doubt, this definition does not include publications in internal journals/scientific conferences and/or paid invited reports.

4. All PIs in the research proposal must meet all of the following cumulative conditions:
 - Hold a Ph.D., M.D., DVM, or DMD degree.
A PI who does not meet this condition but meets all the other conditions and according to the procedures of their Affiliated Institution may submit research proposals on the Institutions behalf, may submit a request for exceptional approval to submit a research proposal in accordance with the terms of the Procedures Regarding Scientific Projects Funded by MOST. In this regard, please note the deadline for submitting requests of this nature.

- A senior academic faculty member or equivalent who is permanently employed or is on track for tenure at the Affiliated Institution or may be a retired researcher with a Ph.D. or professor emeritus who continues working on research in affiliation with the Affiliated Institution.
 - Head of a research group at an Affiliated Institution - manages an independent research group (has a research team and infrastructure suitable for research).
 - Has permission to manage an independent budget in the Affiliated Institution.
5. In compliance with the updated MOST's Procedures Regarding Scientific Projects Funded by MOST ("[MOST Regulations](#)"), there is no limit on the number of proposal submissions or active grants per PI within MOST's international cooperation programs.
6. Accordingly, a PI-PC or PI may participate in multiple proposals submitted within the framework of this Call for Proposals.
7. Researchers should be advised that after a proposal has been submitted, the status of the members of the research team as Principal Investigator- Project Coordinator (PI-PC) and/ or Principal Investigator (PI) may not be changed for the purpose of compliance with the eligibility requirements listed above. It will be clarified that, the aforementioned limitations regarding changing the status of the members of the research team include the addition of a PI who, at the time of submission, was defined as an external consultant or were not listed in the proposal and/or research group.
8. The program is not intended to fund research in the Israeli industry. It should be emphasized that within the framework of a proposal submitted to this Call, it will not be permitted to include a commercial or industrial company with an interest in or ownership of the IP created during the research. Researchers from industry or the third sector may be included in a research proposal submitted to MOST as subcontractors who will provide services to a research group at an academic institution or research institute (whether in consulting hours, or in preparing materials and facilities), but will not be recognized as a separate research group. It should be emphasized that such subcontractors, including consultants from Israel or abroad, may be used in accordance with the above only if unique expertise is required that does not exist in the Affiliated Institutions partnering in the proposal and if an explanation for this need is included within the framework of the submitted research proposal and in the justification of the budget, as follows:
- The necessity for a subcontractor/external consultant and the unique expertise will be examined by the relevant representative from the Chief Scientist division who will approve/reject the use of subcontractors/external consultant accordingly. A proposal that is not approved for the use of a subcontractor/external consultant will only be passed on for further evaluation if the PI-PC agrees to conduct the proposed research without the use of a subcontractor/external consultant and within framework of research teams included in the proposal.
 - For the purposes of complying with the terms of this eligibility requirement, subcontractors may not own the knowledge products, including IP, created during the research. A proposal that is found to include such a relationship will be rejected outright.
 - In a proposal that includes consultants, subcontractors and/or entities outside the Affiliated Institutions included in the proposal, the appendix "Subcontractor Questionnaire" (attached in the appendices of the Call) must be submitted with the proposal submitted to the Science Forefront system.

National/regional topic priorities:

- Applied research (TRL: 2-4)

The Ministry of Innovation, Science and Technology (MOST), funds research projects within all topics of the call.

Proposals must be submitted directly to PRIMA in accordance with the terms of the Call.

Additionally, The Israeli PI-PC is requested to submit the proposal through the Science Forefront system, at <https://kf.most.gov.il>. The proposal should be submitted by the Israeli PI-PC and the submission should be approved by the Affiliated Institution by the submission deadline listed in the Call.

More details in the national/regional call announcement:

Applicants who have questions when preparing their proposal are advised to contact MOST before submitting applications for this call.

Maximum funding per grant awarded to a project partner - Up to €100,000 (380,000 NIS) per project (regardless the number of Israeli partners), up to 2 projects will be funded, subject to availability of funds and approval of Israel State Budget.

Higher Council for Science and Technology/ Session Number 60 dated 14/9/2010

Standards and Criteria for Funding Research and Development Projects

Issued by the Higher Council for Science and Technology pursuant to Paragraph (F) of Article (6) of the Basic Law of the Higher Council for Science and Technology Number (30) of 1987 and amendments thereto

- Article (1):** These standards shall be designated as (The Standards and Criteria for Funding Research and Development Projects) and shall take effect as of their adoption by the Council.
- Article (2):** The following terms and phrases wherever they occur in these Standards possess the meanings designated for them here below unless the context indicates otherwise:
- | | |
|-----------------------|--|
| The Council | : Higher Council for Science and Technology |
| Secretary General | : Secretary General of the Council. |
| General Secretariat | : General Secretariat of the Council. |
| National institutions | : Universities, institutions and concerned scientific, research and other institutions. |
| Research priorities | : Results of the project of defining the scientific research priorities in the Hashemite Kingdom of Jordan for the coming decade in the General Secretariat. |
| Department | : Department of Policies and Scientific Project Management at the General Secretariat |
| Form | : Form approved by the General Secretariat of the Council. |
- Article (3):** Evaluation of the research and development projects and their priorities:
- The results of the research development project priorities in the Kingdom are regarded as a main reference for the funding of research and development projects in the Council during the years 2011-2020.

- b) Upon evaluating the research and development projects submitted for purposes of securing funding from the Council, the following aspects shall be taken into consideration:
- 1- The subject matter of the research shall fall within the national priorities of the research and development approved by the Council and is the outcome of the scientific research priorities in the Kingdom, in addition to any new or emergency subjects deemed as necessitating funding.
 - 2- The research component shall be clear and evident within the objectives of the Project and its implementation plan, while the project budget shall be detailed and justified in the funding request form.
 - 3- The funding priorities of the research and development projects in which participates a team of specialized researchers shall be within the various axes of the project, while the largest number possible of national institutions concerned with the implementation of the project shall contribute.
 - 4- The significance of the project from the applied and developmental aspects and the building of scientific capacities and the presence of success chances for the project.
 - 5- Availability of human resources, facilities and equipment necessary for the implementation of the project.
 - 6- Contribution of the national institutions applying for funding in the financing of the project.
 - 7- Availability of allocations for funding scientific research and development in the budget of the Council.
 - 8- Availability of funding from a quarter other than the Council and the quarter applying for funding.

Article (4): Mechanism for attracting research and development projects:

- a) The General Secretariat shall address the relevant national institutions and supply them with national priorities in the field of research and development in October of every year in light of which research and development projects shall be attracted for purposes of obtaining the support of the Council. Projects proposals will be accepted until the end of December of every year.
- b) The research and development projects proposals will be submitted in the standard form.

Article (5): Technical Committee;

The Secretary General shall form a technical committee of no more than five specialized persons from inside and outside the General Secretariat of the Council to study and evaluate the research and development proposals submitted to the Council.

Article (6): Mechanism of evaluating and funding the research and development projects:

- a) The Pre-Proposal shall be submitted by the principal researcher in accordance with the approved form.
- b) The Department shall study the submitted applications and classify them according to the scientific fields.
- c) The preliminary applications shall be referred to the Technical Committee for purposes of adopting the suitable decisions concerning classifying them and referring them to the evaluation stage.
- d) Formation of the specialized technical committee(s) to evaluate the Pre-proposals for research and development projects submitted to the Council.
- e) The specialized committee(s) shall study the Pre-proposals and present its recommendations to the technical committee.

- f) The Technical Committee shall adopt the suitable decisions concerning approval of the Pre-proposals, and the main researchers shall be notified of those decisions.
- g) In case of the approval of the Pre-proposal of the research project, the researcher shall be asked to submit a detailed proposal through the form approved for this purpose, through the quarter employing the principal researcher. Moreover, it is required to specify the extent and amount of the contribution of the quarter in which the principal researcher works, technically and financially.
- h) The researcher shall submit to the General Secretariat four hardcopies and an electronic copy in a CD of the detailed proposals of the research project.
- i) The Department shall examine the detailed proposals and then refer them to the technical committee.
- j) The Department shall lay down a list of the names of specialized evaluators with recognized scientific capability in the various fields of scientific knowledge from among those working in academic and research institutions and centers inside the Kingdom.
- k) The Technical Committee shall select three evaluators from the list prepared for each project.
- l) The detailed proposals and the standard evaluation form shall be sent to the evaluators accompanied by official letters, whilst giving due regard to the standards and criteria stated in Article there of these Instructions.
- m) After the receipt of the reports of the evaluators the Department shall summarize its finding in a special form including its recommendations bolstered by the reasons for its decision.
- n) The Department shall prepare a detailed report including a list of the research and development projects submitted for obtaining funding divided into three groups as follows:
 - 1- First group: Projects whose funding is recommended.
 - 2- Second group: Project whose funding is recommended in case the necessary financial allocations are available.
 - 3- Third group: Projects whose funding is not recommended due to lack of compliance with the standards and criteria.
- o) The Technical Committee shall discuss the synopses of the evaluation findings and shall recommend to the Secretary General to support the research and development projects which are in fulfillment of the conditions, and the Secretary General shall submit his recommendation to the Council for approval.
- p) After the Council approves funding the projects whose support is recommended, the concerned institutions shall be addressed for purposes of supplying the General Secretariat with the action plans for implementing the project amended according to the specified support, and the action plan shall include the phases of implementation, and the required financial resources for implementing each phase and the timetable necessary for implementation.
- q) The principal researcher undertakes to sign an undertaking including the safeguarding of the confidentiality of the data, information and results of the research project supported in accordance with the approved form.
- r) The principal researcher, the assistant researcher and the president of the university/institution to which the researcher is affiliated undertakes the following according to the standard form:
 - 1- Implement the project according to the submitted research, financial and schedule plan.
 - 2- Obtain the approval of the General Secretariat of any change arising to the plan.
 - 3- Submit a regular progress report every four months about the project and according to the proposed implementation plan.
 - 4- Submit a final technical report and a financial report concerning the expenditures at the end of the project.
 - 5- Refund the remaining sums, in case the project founders for any reason whatsoever, after submitting the financial report on expenditures.
 - 6- Notify the General Secretariat and obtain its approval beforehand, upon replacing the principal researcher or altering his work location, or the addition of a new principal researcher to work in

the project.

- 7- Notify the General Secretariat of the Council upon registering a patent for the project and/or invest it in any form whatsoever inside or abroad Jordan provided that the share of the General Secretariat of the Council is no less than 20% of the revenues arising therefrom, and provided that the remaining percentage is divided equally between the groups of principal researchers and their establishments, and the share of each group of principal researchers and their institution shall be divided between them in accordance with the regulations and instructions in effect in that institution.

Notwithstanding what is stated in Clause (D) of this Article, and in case of submission of research proposals for the partnership program for the sake of scientific research and innovation in the Partnership for Research and Innovation in the Mediterranean Area (PRIMA), the evaluation of preliminary and final proposals will be replaced by international evaluations through PRIMA.

- Article (7):** Follow up on work progress of the research and development projects:
- a) The Department shall draw up follow up cards for the projects which the Council has approved supporting whereby it includes all the data related thereto.
 - b) The principal researcher of the project, in according with an action plan for the implementation of the project shall supply the General Secretariat via his institution, with regular reports (technical and financial) every four months concerning the work progress of the project, and the due payments for the projects will be remitted in light of those reports.
 - c) The sum of supporting the project shall be paid according to the final action plan which is approved by the General Secretariat.
 - d) The Department shall complete the approved disbursement form and have it signed by the Department Director and the Assistant Secretary General and the Secretary General and send it to the Department of Finance in the General Secretariat to proceed with the procedures of disbursement.

- Article (8):** Follow up and circulate the findings of the research and development projects:

The follow up and dissemination of the findings of the supported project will take place through the following:

- a) Upon completion of the implementation of the project the Council will be supplied with the final technical report of the project in accordance with the standard form.
- b) The Department shall send the final technical report to a number of evaluators not in excess of three individuals, who are selected for their scientific experience and capability in the field of the research project.
- c) The Department shall address the principal researcher and request the amendment of the final technical report in accordance with the comments of the evaluators concerning the previous clause (if any).
- d) After the final technical report of the project is adopted, the General Secretariat shall convene a specialized workshop to discuss the findings of the project in cooperation and coordination with the beneficiaries.
- e) The General Secretariat shall print, publish and circulate the final report of the project, after the principal researcher undertakes the final amendments in light of the findings of the specialized workshop.

- Article (9):** Financial Bonuses:
- a) The chairman and members of the Technical Committee shall be paid the sum of (75) seventy-five JOD for each project.
 - b) The chairman and members of the specialized committee(s) shall be paid a financial sum of (75) Seventy-five JOD for each project.
 - c) Every project evaluator shall be paid the financial sum of (80) eighty JOD, and in case the evaluation process requires for the evaluator to undertake a field visit then he shall be paid the sum of (125) one hundred and twenty-five JOD for his evaluation and the visit.

- Article (10):** General Provisions:
- a) None of the projects proposals submitted for purposes of obtaining funding shall be given consideration after the deadline specified in Article Four except in the following cases in combination:
 - The project proposal shall be within the national priorities pertaining to research and development determined and approved by the Council.
 - Availability of the financial allocations in the budget of the Higher Council.
 - Availability of external funders of the project (a party other than the applicant for funding and the Council).
 - Evaluation of the project by specialists provided that the evaluation is positive.
 - Give due regard to what is provided in Article Three of these Instructions.
 - b) In case more than one institution participates in the implementation of the project and a project proposal is received through one of them, it is required to supply the General Secretariat with that which guarantees for the other institutions to contribute to implement the project, financially and technically, in accordance with what is stated in the project proposal.
 - c) It is impermissible for a researcher to be a principal researcher for more than one project concurrently.
 - d) It is required for the ratio of contribution of the national institution applying for funding of the project to be no less than 20% of the value of the final budget of the project.
 - e) In case of not expending the full allocations of the projects in any year the sums will be allocated in the following year and shall be in the trust of the project.
 - f) In case the principal researcher of the project deems it necessary to add an item in the project budget, or undertake any amendment to its items (in excess of 10% of the value of support) without any increase in the overall value of the funding it is necessary to obtain the approval of the Secretary General.
 - g) In case the technical tasks of the project are completed and the final report is issued, and there is a surplus relative to the project allocations, the remaining sums shall be refunded to the General Secretariat whereby they shall be included within the research and development allocations in the budget.
 - h) It is impermissible for the item particular to the cost of the manpower of the project to exceed 25% of the total funding of the project except in special cases to be determined by the Technical Committee.

- i) Any financial revenue accruing to the Council through investing or marketing a patent for any research project shall be included in the Council budget under the item of research and development allocations.
- j) Upon the researcher(s) moving to another Jordanian university or institution during the period of the implementation of the project, the project shall be transferred to a new institution, in accordance with an agreement between the two institutions in coordination with the General Secretariat.
- k) The ownership of the equipment and instruments purchased within the funded research and development projects shall devolve to the Higher Council which is entitled to dispose of them in the manner it deems appropriate and suitable.
- l) Maximum limit requested per partner/proposal for PRIMA 2026 Calls for Jordanian project partners is EUR 100.000,00.

For applicants/ project partners from Private Sector: the maximum funding rate of eligible costs is 70%.

For applicants/ project partners from Public Sector: the maximum funding rate of eligible costs is 100%.

Article (11): The Council authorizes the Secretary General to make a determination in each case where there is no stipulation in these standards.

Article (12): These Standards abrogate any previous instructions or decisions or standards which conflict with their contents.

Article (13): The Secretary General or one whom he authorizes and delegates is responsible for implementation of these standards and criteria.

LEBANON

LUXEMBOURG

✓ **Funding body**

Luxembourg National Research Fund (FNR)

✓ **National Contact Point details**

Dr. Helena Burg
helena.burg@fnr.lu

✓ **Conditions of participation**

The conditions of participation for Luxembourg project partners, including the eligibility criteria, the rules for eligibility of costs, as well as specific requirements concerning the project submission are summarized in the [FNR INTER guidelines](#) available at <https://www.fnr.lu/funding-instruments/inter/>.

✓ **Participation criteria**

FNR supports project partners based in Luxembourg only. To be eligible, the consortium must include at least one Luxembourg partner eligible for financial support from the FNR (i.e. public institutions performing research in Luxembourg; non-profit associations, societal impact companies (SIS), and foundations performing research in Luxembourg that have obtained a special authorization from the Luxembourg Ministry for Higher Education and Research. Please check the FNR website for more details <https://www.fnr.lu/fnr-beneficiaries/>).

For Luxembourg Principal Investigators (PI), the general FNR Requirements for principal investigators and supervisors must be fulfilled (download available here <https://www.fnr.lu/fnr-beneficiaries/how-we-fund-research/>). The Luxembourg PI must be an experienced researcher who holds a doctoral degree. He/she must have a proper employment contract with the eligible beneficiary institution at the starting date of the project and the employment contract must last for the full duration of the research project.

Luxembourg PI can submit up to **1 application** to the PRIMA call as PI. However, they are eligible to participate in a project consortium in proposals submitted by other Luxembourg PI.

Collaboration with an enterprise and/or other stakeholders is encouraged but not mandatory.

✓ **Requested funding limits**

The maximum FNR contribution per research project is 300.000 €. Funding is limited to projects with a minimum duration of 2 years.

✓ **Scientific criteria**

- Thematic areas and topics to be funded by FNR
FNR supports all the topics of PRIMA call.

✓ **Funding criteria**

It is important to read carefully the call for proposals text, the present document in its entirety, and the regulations concerning the conditions of allocation of FNR funding (<https://www.fnr.lu/funding-instruments/inter/>) before submitting a research project.

Eligible expenditures are listed in the “[FNR INTER Application Guidelines](#)” available at the [FNR website](#).

Luxembourg-based researchers applying to PRIMA are required to submit an INTER application to the FNR within 7 days after the PRIMA call deadline.

Important note

- ✓ *The FNR attaches great importance to the impact of research outputs on science, industry, policy making and society in general. To maximize the possibilities for impact of research outputs, results from FNR-(co)funded research are encouraged to be disseminated via high- quality, peer-reviewed publications that are made freely available ([FNR Policy on Open Access](#)).*
- ✓ *As of 2026, in order to be eligible, the research topic of the proposal must fall within the remit of the [Luxembourg National Research Priorities](#).*

Tel - +356 23602308

2. Definitions

Eligible undertakings refer to undertakings planning to carry out Fundamental Research, Industrial Research and/or Experimental Development projects and must either be:

- i. a partnership constituted under the Companies Act, being a partnership en nom collectif, en commandite or a limited liability company; or
- ii. be duly registered as a co-operative society under the Co-Operative Societies Act,
- iii. Professional body;
- iv. NGOs;
- v. Non-profit making entities (including Foundations).

'Professional Body' may be an organisation, an association, a chamber, society, institute, or a group of professional persons not being enrolled or registered in terms of The Voluntary Organisations Act (CAP 492 of the Laws of Malta) or not being otherwise recognized in terms of Law, and which is generally recognized and acknowledged by the professional persons it seeks to represent as their representative body. For the purposes of this Definition, a professional person is one who has undergone a period of study at a university or a recognized institution of higher learning and has obtained the formal qualification entitling the person to practice the respective profession; and who provides a specialized service to the public, based primarily on a fiduciary relationship between herself/himself and the party to whom s/he provides such service on his own personal credibility and responsibility.

'NGO' means any Voluntary or Non-Governmental Organisation set up in accordance with The Voluntary Organisations Act (CAP 492 of the Laws of Malta). Provided that a duly registered NGO, or a duly registered Professional Body shall also be considered to be NGOs for the purposes of these Rules of Participation

'Non-profit making' is an entity where:

- i. The statute of which includes an express exclusion making profits as a purpose; and
- ii. An entity the statute of which expressly excludes in its purposes the promotion of private interests, other than a private interest which has a social purpose; and
- iii. An entity that makes no part of its income, capital or property available directly or indirectly to any promoter, founder, member, administrator, donor or any other private interest.

Provided that if a promoter, founder, member, administrator or donor is another enrolled non-profit making organisation, the limitation in this paragraph (iii) shall not apply where the availability of such income, capital or property is subject to conditions which are consistent with the general purposes of the grantor entity:

Provided further that an organisation shall continue to be deemed as non-profit making notwithstanding that:

- i. It obtains a pecuniary gain from its activities when such gain is not received or credited to its members but is exclusively utilized for its established purposes;
- ii. It buys or sells or otherwise deals in goods or services where such activities are exclusively related to its principal purposes;
- iii. It is established for the general entertainment, pastime, education or other similar benefit only of its members; or
- iv. It is established for the promotion of the social role, ethics, education and values of a trade or profession provided it does not promote the private interests of its members.

Operating base in Malta refers to a Legal Entity that:

- i. Owns, leases, or has been given the right of use by a third party, an adequate premise from where to conduct an eligible economic activity in the region of Malta; and
- ii. Employs at least one person that is based in Malta and is liable to pay income tax in Malta.

Public Entity refers to any Ministry, Department, Entity, Authority, Public Commission, Public Sector Foundation or a similar organisation that does not carry out an economic activity within the meaning of Article 107 TFEU and that exercises public power, or else acts in its own capacity as public authority, where the activity in question forms part of the essential function of the State or is connected with those functions by its nature, its aim and the rules to which it is subject. However, the classification of a particular entity as an undertaking depends entirely on the nature of its activities, and the overriding criterion of consideration is whether it carries out an economic activity or not, e.g., an entity that is formally part of the public administration may nevertheless have to be regarded as an undertaking within the meaning of Article 107(1) of the Treaty. Thus, an entity that carries out both economic and non-economic activities is to be regarded as an undertaking only with regards to the former. In this case, if the economic activity can be separated from the exercise of public powers, then that entity acts as an undertaking in relation to that activity and the financing, the costs and the revenues of that economic activity shall be accounted for separately from the other non-commercial activities.

If an economic activity cannot be separated from the exercise of public power, the activities exercised by that entity as a whole, remain connected with the exercise of those public powers and therefore fall outside the notion of an undertaking.

3. National eligibility criteria

Any Public Entity or Public Research and Knowledge-dissemination Organisation, registered in Malta, that does not carry out an economic activity within the meaning of Article 107 TFEU may apply and will be eligible for funding subject to the terms and conditions laid out in the full version of the National Rules for Participation as well as the PRIMA Guide for Applicants.

Eligible Applicants will be required to provide a complete National Application Form, accompanied by the relevant declarations duly completed as Annexes to the National Application Form via prima.xjenzamalta@gov.mt by the proposal submission deadline. The National Application Form and relevant documentation can be downloaded from the [Xjenza Malta's website](#).

Eligible Undertakings are required to provide the Memorandum & Articles of Association [*or other constitutive document/s*]. Eligible Undertakings that are Professional Bodies or NGOs are still required to provide constitutive documents, and may be requested to provide other documents, including but not limited to, a Statute/Deed (Authenticated) and Voluntary Organisation (VO) certificates.

Eligible Undertakings, including professional Bodies or NGOs, are also required to provide audited financial statements for the last three (3) fiscal years. Where unavailable, applicants are to provide management accounts including (i) a detailed profit and loss, and (ii) a balance sheet for the current year. Start-ups, who may not have the above-mentioned financial documents, are required to provide financial projections for three (3) years signed by an independent certified public accountant, including (i) an income statement, (ii) a cash flow statement, and (iii) a statement of financial position.

Other forms of documentation can be requested during the Call Process or during the Grant Agreement Preparation phase.

Any Applicant which at the time of proposal submission is deemed to be non-compliant with respect to Grant Agreement obligations on any other active project funded by Xjenza Malta, may be deemed ineligible at application stage or may be refused funding under this Programme. For the purposes of this paragraph non-compliance with respect to Grant Agreement obligations shall also be deemed to include failure to respect approved project timelines on other projects funded by the Managing Authority and circumstances where the Applicant is in recognised default of Grant Agreement obligations on any other active project funded by the Managing Authority. Similarly, should applicants become non-compliant during the call process, they will not be awarded funding under this Programme. Any Application may be deemed as ineligible in terms of these National Rules for Participation, if it is submitted by or includes the participation of any person or entity having, in totality or in majority ownership, the same shareholders, Partners or persons holding and/ or exercising a controlling power in any other Legal Entity which was at any time declared as non-compliant or defaulting on any other contract or agreement entered into with the Managing Authority.

The Managing Authority reserves the right not to proceed with signing any Grant Agreement if the Managing Authority deems that doing so would be too high an exposure risk.

Funding under this Programme is made available on condition that the project Beneficiary has not and will not benefit from any other grant or financial assistance of whatever nature, applied for and/ or utilised to cover the same costs and scope which are the subject of the application submitted for funding in terms of the Programme contemplated in these National Rules for Participation. In the case where the application covers work that is part of a larger project, the applicant must submit a table as an appendix to the Application Form that shows a comprehensive list of the items of work and the source of funding for each item.

4. Grant Value

The National Budget for this Call is of **€500,000**.

The maximum amount that national partner/s can jointly request per project is €500,000.

Successful project submissions will receive periodic financing that will be regulated through a Grant Agreement establishing the terms and conditions governing the financing of the project.

5. Project Contact Point

Each national Applicant shall appoint a Project Contact Point. The Project Contact Point shall have the following responsibilities:

- i. To ensure compliance with their obligations in terms of the Grant Agreement.
- ii. To compile Periodic Reports and Final Reports including their timely submissions and effective execution of the project.
- iii. To ensure the submission of all required financial reporting as per the contractual obligations for the partner.
- iv. To execute the project activities according to set timeframes and deliverables.

6. Funding Criteria

More information on the Eligible costs according to Non-State Aid and State Aid Regulations can be found in the full detailed version of the National Rules available on the [Xjenza Malta's website](#).

7. Co-financing

Please consult the full detailed version of the National Rules available on the Xjenza Malta's website for co-financing rates that are dictated according to the State Aid rules adopted in the Call.

8. Post Selection Process

A Grant Agreement will be signed between the successful applicant and the Managing Authority. This Agreement will serve as the basis for project funding and will regulate the transfer of funds to national beneficiaries.

More information on Funding, Management, and Progress Monitoring, Dissemination and Externalisation, and Reporting can be found in the detailed National Rules for Participation. Applicants would need to provide Xjenza Malta with technical and financial reports on a periodical basis. The method adopted will be similar to what is undertaken by Xjenza Malta for other National Programmes.

9. Full detailed PRIMA National Rules for Participation

The full version of the PRIMA National Rules for Participation will be uploaded on the Xjenza Malta website: <https://xjenzamalta.mt/media/open-funding-schemes/>

National Regulations of Morocco PRIMA Program

- ✓ **Funding agency**
Ministry of Higher Education, Scientific Research and Innovation – Morocco (MESRSI).
- ✓ **National Contact Point details:**
 - Hamid BOUABID
E-mail: h.bouabid@enssup.ma
 - Anas CHOKAIRI
E-mail: chokairi.anas@gmail.com
- ✓ **Funding objectives:**
 - Scientific and technical equipment and materials, with priority given to joint use materiels.
 - Scholarships for PhD candidates and postdoctoral researchers.
 - Activities related to valorisation and socio-economic and technological impact.
- ✓ **Funding criteria:**
 - Entities eligible for funding:
 - ✓ Public universities;
 - ✓ Universities from the Public-private partnership;
 - ✓ Non-university institutions;
 - ✓ Public research institutions.
 - The maximum budget granted to a Moroccan entity is set at 100,000 €. When two entities are involved, each may receive up to 100,000 €, within an overall project ceiling of 200,000 €, applicable even if more than two entities participate.
 - If a research project is coordinated by a Moroccan institution, the coordinator will receive an additional budget of 30.000 €.
 - The budget requested for the first payment can not exceed 50% of the total budget allocated to the Moroccan team.
 - The second payment will be made only after:
 - ✓ Validation of the mid-term report;
 - ✓ A spending rate of the first instalment exceeding 70%.
- ✓ **Eligible costs:**
 - Salaries of non-permanent staff (PhD candidates, postdoctoral researchers, and CDD) participating in the project may be funded (in compliance with the joint decision of 18 August 2025 on the management of own resources of public higher education and scientific and technical research institutions).
 - Research allowances may not exceed 30% of the total budget allocated to the Moroccan team, mainly covering PhD scholarships.
 - Travel and mission expenses may not exceed 20% of the budget allocated to the Moroccan team.
 - Study, analysis and subcontracting costs may not exceed 20% of the budget allocated to the Moroccan team.

- Costs related to the organisation of seminars, accommodation and catering may not exceed 10% of the budget allocated to the Moroccan team.
 - Costs related to participation in conferences and seminars and publication in scientific journals may not exceed 5% of the budget allocated to the Moroccan team.
- ✓ **Non-eligible costs:**
- Allowances for permanent staff (permanent staff cannot receive research allowances). Institutional overheads (no deductions by beneficiary institutions are allowed from the grant allocated to research projects).
 - Acquisition of office supplies, stationery and printed materials.
 - Acquisition of IT consumables.
 - Acquisition of IT equipment, except heavy equipment, servers or software.
 - Acquisition of office equipment and furniture.

All these items must be covered by the institution as its contribution to the project..

- ✓ **Intellectual property**
Research teams must take into account intellectual property issues, including management and distribution, from the project preparation phase.

NB : Projects that have already received national funding cannot be resubmitted under PRIMA calls for proposals.

Dépenses éligibles

	Règles nationales
Dépenses du personnel	
Indemnités liées aux travaux de recherche et de prestations de service (Bourses des doctorants, CDD, Ingénieurs, Techniciens, ...)	Max 30% du budget alloué aux indemnités liées aux travaux de recherche et de prestations de service (Bourse doctorant, Post-doc, CDD, ...)
Matériel, Mobilier de bureau et fournitures	
Achat de fournitures de bureau, de papeterie et d'imprimés	Prise en charge par l'institution
Achat de fournitures informatiques	Prise en charge par l'institution
Achat de matériels informatiques	Prise en charge par l'institution
Achat de matériels scientifiques	-
Achat de matériels et mobilier de bureau	Prise en charge par l'institution
Achat de réactifs, kits et produits chimiques	-
Entretien et réparation	
Entretien et réparation de matériels scientifiques et informatiques	-
Transport et Déplacement	
Indemnités de déplacement à l'intérieur du Royaume	Max 20% du budget alloué
Indemnités Kilométriques	
Frais de transport au Maroc et à l'étranger	
Frais de transport des missionnaires et chercheurs étrangers	
Frais de mission à l'étranger	
Frais de séjour des missionnaires étrangers au Maroc	
Autres Dépenses	
Frais de documentation, d'impression et de publication	-
Achat de matières premières et de petit outillage	-
Frais de réalisation de maquettes et de prototype	-
Frais de démonstration et de publicité	-
Frais d'étude, d'analyse et de sous-traitance	Max 20% du budget alloué
Frais d'organisation de séminaires	Max 10% du budget alloué
Frais de dépôt et de gestion des brevets, de licence et/ou de droit auteur	-
Frais de participation aux congrès et séminaires et des publications dans les revues scientifiques	Max 5% du budget alloué

NB : Aucun prélèvement sur la subvention accordée aux projets de recherche n'est autorisé par les organismes bénéficiaires.

PORTUGAL

Information type	Details
Applicable regulation	Applications requesting funding from FCT under this call will be subject to FCT Regulation on projects funded solely by national funds , published in Regulation No. 999/2016, in its current wording, i.e., amended and republished by Regulation no. 5/2024 and corrected by the Declaration of Rectification no. 366/2024/2, published in the <i>Diário da República</i> , 2nd series, no. 100, of May 23, 2024, and by other applicable national and community legislation.
Objectives and priorities aimed	For information on the objectives and priorities of this call, check the Call Text.
Type of beneficiaries	For information on the type of beneficiaries eligible for FCT funding under this call, see article 3 of FCT Regulation .
Criteria of beneficiaries' eligibility	For information on the criteria of beneficiaries' eligibility, see article 5 of FCT Regulation .
Projects typology and areas to be supported	All the typology and areas to be supported under this call.
Criteria of projects' eligibility	For information on the criteria of projects' eligibility, see article 6 of FCT Regulation .
Funding allocation to be granted and conditions	<p>FCT budget allocation for this call is 1 200 000,00 €.</p> <p>The maximum amount of funding to be requested to FCT by a consortium with a Portuguese Coordinator is 250 000,00 €.</p> <p>The maximum amount of funding to be requested to FCT by a consortium with Portuguese Project Applicant(s) is 120 000,00 €.</p> <p>If more than one Portuguese applicant participating in the same international consortium applies for funding by FCT, the combined funding demanded by all the Portuguese applicant(s) may not exceed the maximum financial threshold for proposals with a Portuguese coordinator (250 000,00€) or with one or more Project Applicant(s) (120 000,00€). Portuguese coordination and/or Project Applicants in the same international consortium will therefore have to share the funding that will be granted by FCT.</p> <p>For information on funding rates, see no. 2 of article 7 of FCT Regulation.</p>
Rules and limits to the expense eligibility	<p>For the purposes of defining the budget, the terms defined in article 8 of FCT Regulation apply to eligible expenses and in article 9 to non-eligible expenses.</p> <p>Excluded from the range of eligible expenses are the salaries and other remuneration supplements of teachers, researchers and other staff with a previously established indefinite contract with the Public Administration.</p> <p>Expenditure on adapting buildings and facilities is limited to a maximum of 10% of the project's total eligible expenses.</p> <p>The project's indirect costs are based on the application of a flat rate of 25% of the direct eligible costs.</p>

Applicable forms of payment	In accordance with no. 1 of article 7 of the FCT Regulation , the funding to be granted to proposals requesting funding from FCT under this call is non-reimbursable and is based on real costs . As such it must be justified through invoices paid or other accounting documents of similar probatory value, under the terms of no. 5 of article 8 of FCT Regulation .
Additional information	<ul style="list-style-type: none"> • The percentage of time dedicated to transnational projects will not be added to the percentage of time dedicated to existing national projects. <p>Statement of Commitment:</p> <ul style="list-style-type: none"> • Within 10 working days after the deadline for submitting the pre-proposal, a Statement of Commitment duly signed by each applicant (partner(s) and/or coordinator) and by the legal representant of the Portuguese Proposing Institution must be sent to silvia.silva@fct.pt • The stamp or white seal of the Portuguese Proposing Institution will not be required on a digitally signed Statement of Commitment. • Portuguese applicants of transnational consortia that <u>do not apply for funding from FCT do not need</u> to submit the Statement of Commitment to FCT.
Contact Point	<p>Silvia Silva silvia.silva@fct.pt , phone: +351 21 3924300 https://www.fct.pt/concursos/prima-concurso-2025-seccao-2 Updated link will follow.</p>

SLOVENIA

Country/Region	Slovenia
Funding organisation, address and country	Slovenian Research and Innovation Agency – ARIS, Bleiweisova cesta 30, SI-1000 Ljubljana, Slovenia
National contact Point - the contact person for PRIMA communication	Peter Volasko, Ministry of Higher Education, Science and Innovation, peter.volasko@gov.si
PRIMA contact point at the FB - the contact point to be contacted by national applicants for the information regarding the budgetary issues and national participation rules	Dr. Suzana Seaptefrati, Department for International Cooperation, Slovenian Research and Innovation Agency, suzana.seaptefrati@aris-rs.si
Funding commitment	300.000,00 EUR
Anticipated number of projects with Slovenian partners	1 project (the best evaluated project with Slovenian participation)
Maximum funding per awarded project	300.000,00 EUR (100.000,00 EUR/ year). Funding will be awarded to the highest-ranked project proposal based on merit-based evaluation criteria, subject to budget availability.
Type of research eligible for funding: eligible TRL range	ARIS will only fund strategic (basic) research.
Eligibility of a partner as a beneficiary institution	<p>Eligible beneficiary institutions (public or private higher education institutions and research institutes) need to be registered in the ARIS register of research organizations and shall not be business sector entities. Business sector entities may apply; however, they need to ensure their own funding for participation. Eligible beneficiary institutions may participate in the consortium as Main Applicant or Co-Applicant.</p> <p>The Principal Investigator (i.e. project leader of the Slovenian team) shall be a researcher holding a PhD degree who:</p> <ul style="list-style-type: none"> - meets the ARIS requirements for a project leader of a basic or applied research project; - is registered in the ARIS register of researchers; - is employed at the Slovenian research organization (applicant) or will be employed when signing the grant contract at the latest.

	<p>All participating researchers have to be registered in the ARIS register of researchers and must have available research hours according to the applicable ARIS rules.</p> <p>Financing two PRIMA Section 2 projects with the same PI at the same time is not allowed.</p>
Eligibility of costs	<ul style="list-style-type: none"> - Personnel costs (including social security, health, pension and other contributions according to the national legislation); - Material costs (travel and meeting costs, consumables, dissemination and knowledge exchange costs, other costs); - Depreciation costs. <p>Slovenian teams will be financed as per price category (A, B, C, D) of research projects. The total sum of research hours is calculated by dividing total grant sum by the value of research full time equivalent for the chosen price category of the project (A, B, C or D).</p> <p>Overhead is calculated up to 25% of all eligible costs calculated at the level of the chosen project category (without subcontracting costs) being a consistent part of the total grant sum. Overhead costs are used for covering the running costs of the institution which are related to implementation of the PRIMA project.</p>
Submission of the pre- and full proposal at the national level	<p>All Slovenian applicants at the pre-proposal and full proposal stage are invited to contact ARIS as the applicant eligibility and proposed budget should be examined by ARIS prior to official submission (at least 7 working days before the deadline for the official submission). The budget approved by ARIS should not be modified when submitting the pre-proposal and full proposal.</p>
Submission of financial and progress reports at the national level	<p>Yes, financial and progress reporting carried out on an annual basis according to the national rules.</p>
Information available at	<p>ARIS - Zakoni, predpisi, normativni akti - Splošni akt o postopkih (so)financiranja in ocenjevanja ter spremljanju izvajanja znanstvenoraziskovalne dejavnosti (neuradno prečiščeno besedilo št. 1)</p> <p>https://www.uradni-list.si/glasilo-uradni-list-rs/vsebina/2022-01-0700/uredba-o-financiranju-znanstvenoraziskovalne-dejavnosti-iz-proracuna-republike-slovenije</p> <p>https://www.uradni-list.si/glasilo-uradni-list-rs/vsebina/2022-01-3558?sop=2022-01-3558</p> <p>https://www.uradni-list.si/pdf/2023/Ur/u2023079.pdf</p>

SPAIN - AEI

✓ Funding Body:

Agencia Estatal de Investigación (AEI)- State Research Agency

✓ National Contact Points:

Severino Falcón

E-mail: severino.falcon@aei.gob.es

E-mail: prima@aei.gob.es

+34 916038384

✓ Name of & link to the funding programme(s) and other relevant information:

- The projects granted by the AEI must be aligned with the main objectives described in the [Plan Estatal de Investigación Científica, Técnica e Innovación](#).
- The instrument for funding the Spanish groups is “Proyectos de Colaboración Internacional” (Projects of International Collaboration, PCI). Applicants are encouraged to consult the [PCI 2025-2](#) call text and especially the [PCI requirements document](#) on the national call website, as well as check their eligibility with the

Important.

- Each PI from an AEI eligible institution requesting funding from AEI must complete the submission procedure [App Solic Internacional](#) and the his/her Legal Representative must register the proposal submission within one week after the PRIMA submission deadline. All the information regarding this process will be available and permanently updated at [Convocatorias Internacionales | Agencia Estatal de Investigación](#) (Section “Bioeconomía”). The PI must include a copy of the international joint proposal, the PRIMA application and the “Declaración responsable del investigador principal” (see Word document on the AEI website).

You can find in the following link the documents and link to the AEI application system:
<https://www.aei.gob.es/colaboracion-internacional/convocatorias-internacionales/prima>

✓ National eligibility criteria

- The eligible beneficiaries are non-profit research organizations (such as universities, public research institutions, technological centres and other private non-profit institutions performing RDI activities in Spain) which must comply with the requirements established by this transnational call and with the rules on eligibility defined in the corresponding Spanish national funding instrument “Proyectos de Colaboración Internacional” and the [PCI requirements document](#).

The entities must have been previously beneficiaries of any of the AEI calls. They have to ensure contractual relationship with the Principal Investigator (PI) during all the implementation of the project.

- Spanish Principal Investigators (PIs) must:
 - Be eligible to the corresponding PCI (see [PCI 2025-2](#) as an example) call and [PCI requirements document](#)
 - Demonstrate experience as investigators in projects funded by the Plan Estatal I+D+i 2013-2016, Plan Estatal I+D+i 2017-2020, 2021-2023, ERC Grants, European Framework Programmes or other relevant national and international programmes.
 - Spanish PIs must have a contractual relation with the beneficiary covering the expected total length of the project.

Incompatibilities (these must be taken into account when participating in different ERA-Nets or other international initiatives):

- PIs will be declared ineligible if
 - they submit, as PIs or as coordinators, more than one preproposal to this transnational call,
 - they have submitted any proposal to another international call which may be funded through Spanish PCI calls in the same or in consecutive years (2026-2027),
 - they have obtained a PCI project in the previous year.

Financing of two PCI projects, with the same PCI, and in the same or consecutive years, is not allowed.

- PIs are not allowed to apply for funding in (i) more than one proposal of this transnational call, (ii) in more than one proposal in the same PCI call and (iii) in PCI calls in consecutive years.
- If the same PI submits two or more proposals in this transnational call, they will all be declared ineligible, except one, without the possibility of changing the PI.
- PIs must remain unchanged between the proposal to this transnational call and the corresponding PCI call should the proposal be recommended for funding.
- A PI that has been granted a PCI the previous year will be declared ineligible, without the possibility of changing the PI.

Important:

1. Applicants must include in the PRIMA application the full name of the PI and the full name of their institution as listed in the [“Sistema de Entidades” \(SISEN\)](#).

It is very important to check the eligibility before sending the preproposal to avoid unwanted situations and damages to third parties

✓ **Scientific criteria**

- Research and innovation activities in all PRIMA topics are eligible. Mere diffusion, communication or other activities will not be eligible for funding.
- Spanish investigators are strongly encouraged to include the Spanish industrial sector in the transnational consortia. Spanish Industrial partners can apply to CDTI (participant in the PRIMA calls) for funding.

- The AEI will only fund excellent research projects with a clear added value for scientific development and international collaboration.
- On the other hand, when an excellent project is not approved for reasons beyond AEI's control, AEI reserves the right to reduce its budgetary commitment by the value of the non-approved project.

✓ **Duration of Project Implementation:**

36 months

✓ **Maximum Funding per Project:**

General funding criteria:

- The AEI will avoid double funding (overlapping with other EU or National funding) and will not grant projects or parts of projects already funded.
- Only Personnel costs for new temporary employment dedicated to the project are eligible. This must be clearly stated in the contract. The costs of permanent staff linked to the beneficiary entity or members of the research team will not be considered eligible costs.
- Direct costs (DC) such as current costs, disposable materials, travelling expenses, coordination costs and other costs that can be justified as necessary to carry out the proposed activities.
- Overheads / Indirect Costs (IC, 25% of all direct costs, including the subcontracting costs).
- The following funding limits of direct costs are considered eligibility criteria. Proposals not respecting these limits could be declared ineligible.

Maximum funding per project	Maximum DC (€)	IC (25% - €)	TOTAL (€)
One AEI applicant	140.000	35.000	175.000
One AEI applicant - coordinator	220.000	55.000	275.000
Two AEI applicants- one coordinator	260.000	65.000	325.000

Additional € 40.000 (direct costs) per Spanish group can be granted if the work plan includes substantial experimental tasks.

The previous table shows that:

- Only ONE applicant asking funding for AEI is allowed per proposal as partner,
- Two AEI applicants are allowed in the same proposal if one of them is acting as coordinator
- These amounts refer to 3 years projects. In case of shorter projects, the amount will be adjusted accordingly

Other funding criteria:

- Centers formed by different Spanish legal entities will be considered as a unique entity, and thus the maximum funding should not exceed the limits per proposal established above (for example, mixed centers).

- Two centres or institutions belonging to the Consejo Superior de Investigaciones Científicas (CSIC) will be treated as two separate partners one from another when one of them is acting as Coordinator of the proposal and their tasks and identity in the project are sufficiently separated and justified.
- The final funding will take into account the transnational evaluation of the collaborative proposal, the scientific quality of the Spanish group, the added value of the international collaboration, the participation of Spanish industry and stakeholders and the financial resources available.

✓ **Eligible Costs:**

- Personnel costs for temporary employment contracts (PI contract excluded). The costs of permanent staff linked to the beneficiary entity or members of the research team will not be considered eligible costs.
- Direct costs such as current costs, small scientific equipment, disposable materials, travelling expenses, coordination costs, and other costs that can be justified as necessary to carry out the proposed activities.
- Overheads (25 % of all direct costs, including the subcontracting costs).

Further requirements: In addition to the national regulations, specific rules for the consortia may be applicable within the transnational call; please read carefully the Joint Call text and all the related instructions.

Important and mandatory acknowledgement: Any publication or dissemination activity resulting from the granted projects must acknowledge funding by the AEI: “Project (reference nº XX) funded by the Agencia Estatal de Investigación through the PCI (year) call (or its equivalent)”.

Data Protection: By submitting a grant application to the AEI, the applicants consent to communication of the data contained in the application to other public administrations, with the aim of further processing of the data for historical, statistical or scientific purposes, within the framework of the Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights.

Open Access and Open Data policy

Applicants should comply with Open Access/Open Data specified in the respective PCI call or equivalent. The results of the funded research actions, including both the results disseminated through scientific publications and the data generated in the research, must be available in open access, with the exceptions indicated in the PCI call or equivalent.

Do No Significant Harm (DNSH) principle:

The projects granted under this call must comply with the DNSH criteria (see Article 6.5 of the [PCI 2022-2](#)).

AEI – ANNEX. “Declaración responsable”

NOTA IMPORTANTE

La presente declaración responsable se atenderá a lo establecido en el artículo 69 de la Ley 39/2015, de 1 de octubre, del Procedimiento Administrativo Común de las Administraciones Públicas.

Según el citado precepto, la inexactitud, falsedad u omisión, de carácter esencial, de cualquier dato o información que se incorpore a una declaración responsable o a una comunicación, o la no presentación de la documentación que sea en su caso requerida para acreditar el cumplimiento de lo declarado, determinará la imposibilidad de continuar con el procedimiento dando lugar a la desestimación de la ayuda o en su caso su revocación, sin perjuicio de las responsabilidades penales, civiles o administrativas a que hubiera lugar.

Asimismo, se recuerda que tal y como establece el artículo 58.a) de la Ley 38/2003, de 17 de noviembre, General de Subvenciones, se considerará falta muy grave la obtención de una subvención falseando las condiciones requeridas para su concesión u ocultando las que la hubiesen impedido o limitado.

DECLARACIÓN RESPONSABLE

D/Dña....., NIF:....., con domicilio en....., teléfonos de contacto: en nombre propio y como investigador(a) principal español(a) de la propuesta con título y acrónimo de la convocatoria del año en la que participa la Agencia Estatal de Investigación (AEI) como agencia financiadora española.

DECLARO RESPONSABLEMENTE EN NOMBRE PROPIO Y COMO INVESTIGADOR(A) PRINCIPAL DE LA PROPUESTA QUE:

1. Estoy en posesión del grado de doctor/a, o
2. Pertezco a un centro contemplado en el Directorio de centros tecnológicos y centros de apoyo a la innovación tecnológica regulados por el Real Decreto 2093/20228, estoy en posesión de la titulación universitaria de licenciado/a, ingeniero/a, arquitecto/a o graduado/a, y, además, cumplo con una de las siguientes condiciones:
 - a. Tengo acreditada experiencia en actividades de I+D+i durante al menos cinco años.
 - b. He dirigido proyectos de investigación en el marco de las convocatorias de proyectos de I+D+i del plan estatal de I+D+i 2013-2016 o posteriores
3. Cuento con autorización expresa de la entidad beneficiaria para participar en la solicitud de la propuesta(ACRONIMO).
4. No estoy contratado/a con cargo a los fondos obtenidos en ninguna convocatoria de los planes estatales de I+D+i actual o anteriores, *con excepción* de las correspondientes al Programa Estatal de Promoción del Talento y su Empleabilidad en I+D+i o equivalentes en las que se requiera estar en posesión del grado de doctor/a, o de las ayudas «Severo Ochoa» y «María de Maeztu» de la AEI.

5. Tengo una relación funcional, estatutaria, laboral u otro vínculo profesional con la entidad beneficiaria de la ayuda o con otra entidad que cumpla los requisitos de elegibilidad de las ayudas durante toda la duración de la acción³, o
6. En el caso de que el vínculo profesional con la entidad beneficiaria sea menor a la duración de la acción, aporto una declaración de la entidad beneficiaria comprometiéndose a mantener la vinculación durante toda la duración de la acción.
7. En el caso de que mi vinculación laboral no sea con la entidad beneficiaria sino con otra, cuento con la autorización expresa de ésta para participar en la solicitud presentada por la entidad beneficiaria.
8. Cuento con experiencia (no necesariamente como investigador principal) en proyectos financiados por alguno de los Planes Estatales desde 2013, en proyectos del Programa Marco Europeo de I+i, incluidas las ayudas del Consejo Europeo de Investigación u otros programas nacionales o internacionales relevantes tal y como muestran las referencias de proyectos concedidos en los que he participado que se incluyen en el anexo⁴.
9. No soy beneficiario de un ayuda de Proyectos de Colaboración Internacional del año 2025⁵.
10. Solo presento una propuesta a la presente convocatoria⁶.
11. No he presentado otra propuesta (incluso que no haya sido evaluada) en convocatorias transnacionales (proyectos bilaterales, asociaciones / partenariados europeos, u otros programas internacionales como CRCNS de la *National Science Foundation* estadounidense, los grupos de interés EIG-Concert-Japan y EU-CELAC, entre otros), que puedan ser financiadas por las convocatorias de “Proyectos de Colaboración Internacional” de 2026 o 2027 de la AEI.

³ La expectativa de nombramiento o contratación con motivo de haber superado un procedimiento de selección de personal en concurrencia competitiva convocado por cualquier entidad del sector público, según la definición del artículo 2 de la Ley 40/2015, de 1 de octubre, se considerará vinculación suficiente

⁴ En caso de no tener experiencia en proyectos de los planes estatales y nacionales mencionadas, puede informar de proyectos en los que haya participado para su valoración.

⁵ No es compatible tener dos ayudas Proyectos de Colaboración Internacional del mismo año o de dos años consecutivos: 2024-2025, 2025-2026, 2026-2027.

⁶ Si un mismo investigador principal presenta dos o más propuestas a la presente convocatoria, todas podrán ser declaradas no elegibles, sin posibilidad de cambio de IP.

Anexos:

- Anexo 1. Lista de proyectos más relevantes financiados por los planes nacionales o/y estatales, así como de los programas marco de investigación e innovación de la Unión Europea u otros relevantes en los que he participado.
- Anexo 2. Declaración de la entidad beneficiaria comprometiéndose a mantener la vinculación del investigador principal durante toda la duración del proyecto. *Solo para los investigadores principales que tengan una vinculación con la entidad beneficiaria menor a la duración del proyecto.*

En a de de

Fdo.: (Nombre completo y dos apellidos).

Anexo 1.

Listado de proyectos financiados por planes estatales, así como de los programas marco de investigación e innovación de la Unión Europea u otros relevantes en los que ha participado.

Referencia proyecto	Acrónimo	Título

Anexo 2.

Declaración de la entidad beneficiaria comprometiéndose a mantener la vinculación del investigador principal durante toda la duración de la acción.

Solo para los investigadores principales que tengan una vinculación con la entidad beneficiaria menor a la duración del proyecto.

Necesaria también si la entidad beneficiaria es distinta de la entidad a la que está vinculada la persona que actúa como IP.

SPAIN CDTI

✓ Funding Body:

CDTI (Centro para el Desarrollo Tecnológico y la Innovación)

CDTI (Centre for the Technological Development and Innovation)

www.cdti.es

✓ National Contact Points:

- María del Pilar de Miguel Ortega
Tel: (+34) 91 581 55 00
E-mail: mariapilar.demiguel@cdti.es
- Francisco Sánchez Quintana
Tel: (+34) 91 581 55 00
E-mail: francisco.sanchez@cdti.es
- José Manuel Durán Cuevas
Tel: (+212) 666172151
E-mail: josemanuel.duran@cdti.es

✓ Submission of the proposal at national level

In addition to the project proposal, which shall be submitted to PRIMA Foundation, the Spanish enterprises are requested to submit further documentation to CDTI, through the CDTI Electronic Submission tool: <https://sede.cdti.gob.es/AreaPublica/home.aspx?lang=es>

Applicants will need to login in that platform. New users must, in the first place, be validated by CDTI.

Afterwards, they will need to create:

1.- An application in the category of ‘Proyectos de Cooperación Tecnológica Internacional (PCTI)’ and the subcategory ‘Proyecto Prima’.

In this application, they will need to fill in an online form and upload the International Proposal submitted to PRIMA Foundation. This national application will need to be submitted a week after the deadline established for the international submission of the section two.

2.- A national application in the category of “Proyectos Individuales de I+D”. Other funding instruments, like INNOGLOBAL FEDER, might be available too.

Please visit CDTI’s website ([PRIMA | CDTI](#)) to check the specific date and any other further information or contact the Spanish National Contact Point.

Any participant who does not submit its national documents duly signed and in due time, as specified in the web platform, will be considered non-eligible for funding.

✓ **National eligibility criteria:**

o Participation criteria: Terms and conditions of eligible entities.

The eligible institutions must be enterprises (being large companies or SME), established and carrying out RTDI activities in Spain.

Other entities such as Universities, Public Research Institutions, Technological Centres, and other non-profit private institutions should check whether they meet the eligibility terms of AEI-MCI, or alternatively, they could participate under subcontracting by Spanish companies (provided that, the entity or respective researcher is not requesting funding from AEI-MCI simultaneously for the same activities).

o Project Budget: There is not a maximum amount per proposal, but the minimum eligible budget per company amounts to €175,000 EUR (this amount applies to the project budget per partner, not the requested funding).

o Project duration: 12-36 months.

✓ **Scientific criteria:**

o Thematic areas and topics to be funded.

Eligible activities: technology-based activities within industrial research and/or experimental development projects (in accordance with the definitions of the General Block Exemption Regulation, EC Regulation nº651/2014) representing outstanding scientific-technical quality and high innovative potential. The Spanish part of the proposed work plan must be developed in Spain.

CDTI could support the topics according to PRIMA Annual Work Plan.

o Eligible costs:

- Personnel costs.

- Instrument and equipment costs, to the extent and during the period in which they are used for the project.

- Contractual research costs, technical knowledge and patents bought or licensed from outside sources at market prices, costs for consulting services intended exclusively for the research activity.

- Other costs: materials, supplies and similar products, exclusively used for the research project. Audit costs for the national reporting of the project (when applicable).

- Additional general expenses (indirect costs, as a percentage of personnel costs).

– **Applicants must check the detailed description of the eligible costs that will be published at CDTI website.**

CDTI Prima section [PRIMA | CDTI](#)

CDTI funding conditions (Proyectos de Cooperación Tecnológica Internacional) <https://www.cdti.es/ayudas/proyectos-de-i-d>

o non-eligible costs.

Please note that management, dissemination, operational, coordination and travel costs are not eligible for funding.

✓ **Additional Info**

The funding instrument will consist of a “Partially Refundable Loan”, with a financial cover of up to 85% of the total approved budget, provided that the maximum intensity allowed by EU State aid rules are not exceeded.

CDTI’s Partially Refundable Loan comprises a non-refundable tranche (NRT) and a refundable one plus the tax exemption report acceptable by the Spanish Minister of Treasury. The non-refundable tranche of the loan (a grant) may amount to a maximum of 30% of the financial cover (**), depending on the characteristics of the project, the size of the beneficiary and the source of the funds. The refundable tranche shall bear a fixed interest rate equal to the one-year Euribor. The financial conditions are set beforehand, on the date of the project’s approval by the Executive Board of CDTI. The refundable tranche shall be repaid within 10 or 15 years, to be counted from the centre of gravity of the project. This center of gravity is calculated in accordance with the project duration and the milestones. The first reimbursement shall be paid 3 years after the centre of gravity of the project, and, at least 2 years from the date of its completion. The refundable tranche will accrue interests every six months from the time of its disposal.

✓ * If the Euribor reaches negative values, CDTI will consider its value as zero.

✓ ** The non-refundable part is subject to the availability of funds and is calculated based on a maximum coverage of 75% of the total budget approved by the Board of Directors. Increasing financial coverage to 85% of the total approved budget does not generate an additional non-refundable part.

For further information, please contact the NCP or visit CDTI website:

<https://www.cdti.es/>

INNOGLOBAL FEDER funding conditions, if applicable, should be consulted in its specific call text.

**Tunisian
Republic**
Ministry of Higher Education
and Scientific Research

TUNISIA

1. Name of the Funding Party, address and country

Ministry of Higher Education and Scientific Research

Address: Avenue Ouled Haffouz -1030 – Tunis

Country: Tunisia

2. Participation criteria

Funding recipients

- This call is open to Tunisian public institutions of higher education and scientific research and public research centers.
- The coordinator/ Principal Investigator (PI) should be full professor or associate professor (maître de conférences).
- The coordinator or Principal Investigator (PI) must be affiliated with a public research laboratory that is part of the partner institution involved in the project.
- The critical mass of each research team involved must be composed of a minimum of five (5) statutory researchers (corps A and B), including at least two members with the rank of professor, associate professor, or equivalent rank.
- Researchers who have already PRIMA SECTION 2 ongoing one project as PI are not authorized to get funding under this call.
- A coordinator cannot submit more than one proposal to PRIMA calls (section 1 and section 2) per year.
- The same proposal cannot be submitted to section 1 and section 2 of PRIMA.

Funding criteria

- All the topics of the PRIMA AWP 2026 are eligible for Tunisian partners for funding.
- MHESR has reserved up to:
 - 30 000 €/year/project if the Tunisian partner is PI
 - 45 000€/year /project if the Tunisian partner is coordinator.
- If several Tunisian partners are in the same project, the budget will be shared between them.
- The duration of the project should not exceed 3 years.

- The conditions for the execution and financing of the projects, upon completion of the selection process, will be defined in the grant award agreements. The coordinator or the PI of the selected project for financing will sign an agreement with the MHESR/General Directorate of Scientific Research.
- The Tunisian coordinators or the PI(s) should send their annual and final reports to the MHESR without any prior notification.

3. List of eligible costs

Eligible costs are those spent directly by the project partner during the duration of the project and used exclusively for achieving the objectives of the project. All expenses must be incurred between the start date and the end date of the project and must be limited to the allocated budget

For 2026 calls for proposals, the following expenses would be eligible:

- Travel and daily allowances,
- Small equipment, logistics, and consumables,
- service Contracts and research contracts (only for non-permanent staff),
- Organization and participation in scientific events and meetings.
- Publication and filing fees (required for scientific publications and patent filing),
- Expenses for conducting analyses and processing samples.

The acquisition of computer and office equipment is an ineligible expense
